OFFICIAL PROPOSALS

Bids: June 17.

Construction, Heating, Sanitary and Electric Work

UTICA STATE HOSPITAL

Marcy, N. Y.

Sealed proposals for Construction, Heating, Sanitary and Electric Work, Single Employee's Home, Utica State Hospital, Marcy Division, Marcy, N. Y., will be received by the State Hospital Commission, Capitol, Albany, N. Y., until 2 o'clock p.m. (Eastern Standard Time), Wednesday, June 17, 1925, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addrssed, and shall be accompanied by a deposit as a guarantee that bidder will enter into the contract if awarded same. Deposit shall consist of a certified check drawn upon some legally incorporated bank in this State and made payable to the State of New York or money equal to 5% of the amount of proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty days after official notice of award of contract and in accordance with the terms of Specifications No. 4508, 4509, 4510 and 4511. The right is reserved to reject any or all bids. Drawings and specifications may be examined at the Utica State Hospital, Marcy Division, Marcy, N. Y., at the New York Office of the Department of Architecture, 18th Floor, Fuller Building, Broadway & 23rd St.; and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained by persons or firms engaged in the line of work required at the discretion of the Architect from the Department of Architecture, Capitol, Albany N. Y., upon the deposit of a certified check, or money, in the sum of $25.00 made payable to the State of New York, for each set of Construction drawings and specifications and $10.00 for each set of Heating, Sanitary or Electric drawings and specifications, which deposit will be returned if the drawings and specifications are received in good condition by the State Architect, Sullivan W. Jones, Capitol, Albany, N. Y.

Dated: May 7, 1925.

Bids: June 8.

Concrete Arch Bridge

Camden, N. J.

Sealed proposals are invited for building a three-span concrete arch bridge over Newton Creek at Champion Road, Gloucester City, County of Camden, N. J. Width is forty-nine and one-half (49½) feet by two hundred fifty-nine (259) feet overall.

Plans and specifications will be mailed to any address on receipt of one (1) dollar. Plans can be seen at the office of County Engineer in Court House, Camden, N. J.

Bids will be received, immediately opened and publicly read at the Court House, Camden, N. J., on Monday, June 8th, 1925, at 11 a.m. Daylight Saving Time.

Each bid must be accompanied with a certified check in the sum of ten (10) per cent of amount of bid and drawn to order of John W. Sell, County Treasurer; there must also be a surety company bid letter.

The County reserves the right to reject any or all bids and decide as to responsibility of bidder.

FRED W. GERCKE,
Chairman Bridge Committee.
J. J. ALBERTSON,
County Engineer.

OFFICIAL PROPOSALS

Bids: June 11.

Street Improvement

Jackson, Tenn.

Sealed proposals will be received by the undersigned until 10 o'clock a.m. on Thursday, June 11th, 1925, for the improvement of certain streets in the City of Jackson, Tenn., in accordance with plans, profiles and specifications prepared and on file in the office of the City Commission, approximating 43,000 sq.yds. of pavement, 27,000 lineal ft. concrete curb and gutter, 1,100 ft. storm sewer. Bids are requested on sheet asphalt, Topeka, and vertical fibre brick on a concrete base and on 6 inch, or course concrete pavement. Bids on other types may be submitted also.

Each bid must be accompanied by a certified check or bidder's bond in the amount of ten per cent of the cost of the work, computed on the basis of the bid submitted. The right is reserved to reject any or all bids. At 10 o'clock a.m. on said date, all bids will be opened and publicly read. A deposit of $5.00 is required for each set of specifications, returnable when bid is submitted or upon return of specifications.

C. E. GRIFFIN,
Commissioner of Public Utilities.
E. R. DIKE,
City Engineer.

Bids: June 16.

Sewage Disposal Plant

Wheaton, Ill.

Sealed proposals for the construction of a sewage disposal plant, and appurtenant construction work, will be received by the Wheaton Sanitary District, Du Page County, Illinois, at its office, in the City Hall, in the City of Wheaton, Illinois, until June the 16th, 1925, at the hour of 8 o'clock p.m., Daylight Saving Time, at which time and place said bids will be publicly opened and declared.

The work consists of the following items to wit:

A complete Sewage Disposal Plant consisting of:

Tanks and Pump Pit.

Tank and Pumping Station Superstructure.

Piping in and around plant.

Slug Beds.

to be made in accordance with the maps, plats, plans, profiles and specifications for the same on file in the office of the clerk of said Sanitary District, Wheaton, Illinois, also at the office of Alvord, Burdick & Howson, Consulting Engineers, 8 South Dearborn Street, Chicago, Illinois, and A. L. Webster, Chief Engineer, Wheaton, Illinois.

All other information may be obtained from the above offices. Also blanks for bidders, with instructions attached thereto.

Dated: Wheaton, Illinois, May 14, A.D. 1925.

WHEATON SANITARY DISTRICT.
FRED D. EWELL,
Pres.
HUGO SCHMIDT,
Clerk.

Bids: June 3.

Building Alterations

Warren, Ohio.

City of Warren, Ohio. Bids opened June 3rd. Four three story buildings, demolishing old fronts cut off seven feet and replace new fronts and other alterations in connection with street widening.

Plans may be secured by a deposit of $5.00 which will be refunded on return of same.

OFFICIAL PROPOSALS

Bids: July 1.

Erection and Completion of the Alterations and Additions to the Grant Park Stadium, Chicago

SOUTH PARK COMMISSIONERS

Chicago, Ill.

Sealed proposals will be received by the South Park Commissioners, 57th Street and Cottage Grove Avenue, Chicago, Illinois, until 12:00 o'clock, noon, July 1, 1925, for doing all the work in the complete construction and erection of Alterations and Additions to the Stadium to be erected on the Lake Front between Roosevelt Road and Sixteenth Street extended, Chicago, Illinois, in accordance with drawings and specifications, entitled "Alterations and Additions to Stadium, Grant Park," prepared by Holabird & Roche, Architects. Copies of the specifications including bidding sheets and plans may be obtained at the office of the South Park Commissioners, 57th Street and Cottage Grove Avenue.

Separate bids are invited for the work to be done as specified under each of the following headings:

1—General Work.
2—Drainage, Plumbing and Gatfitting.
3—Electric Wiring.
4—Heating and Ventilating.
5—Coal and Ash Handling Machinery.
6—Grand Stands and Boxes.

Only bids from those of record in the office of the South Park Commissioners as having received specifications will be considered.

All specifications, including bidding sheets, must be identified by the stamp of the Secretary of the South Park Commissioners thereon. No bid will be considered which is not submitted on a bidding sheet received from the South Park Commissioners and identified as above described.

Two copies of specifications and one set of plans will be furnished on application to each prospective bidder upon the deposit of $50.00, which deposit will be refunded upon return of plans in an unmutilated and serviceable condition. Bidding blanks to be used will be found in the specifications. Facilities will be provided for preliminary examination of plans by bidders who do not wish to remove plans from the office. A deposit to the amount of two and one-half per cent (2½%) of the aggregate amount of the highest proposal named in the submitted bid, either in currency or certified check, payable to the South Park Commissioners, must accompany such proposal as a guarantee of the good faith of the bidder.

The successful bidder will be required to enter into a contract and give a surety bond for 25% of the amount of his contract.

All proposals must be placed in a sealed envelope, plainly marked as stated below, which envelope shall be delivered to the Secretary of the South Park Commissioners at 57th Street and Cottage Grove Avenue before the time limit stated above.

According to the bid contained therein, the envelope shall be marked as follows:

"Proposal for ..... of the alterations and additions to Stadium."

The South Park Commissioners reserve the right to reject any or all proposals.

E. J. WHITTY,
Secretary.

CONSTRUCTION NEWS

Engineering News-Record, June 4, 1925

Waterworks

PROPOSED WORK

Massachusetts—Dept. Pub. Wks., Boston, plans surface drains, manholes, catch basins, etc. in Chelmsford St., North Monroe Terrace and private land in Dorchester. $25,000. J. A. Rourke, comr.

R. I., Providence — Water Supply Bd. plans covered reservoirs in Johnston and North Providence. $15,000 or more. B. T. Potter, chn.

Connecticut—Special Committee, C. M. Saville, 53 North Beacon St. (interested) plans additions to water supply at Mansfield State Training School, Mansfield, and Connecticut Agriculture College, Storrs. $200,000.

N. Y., Potsdam—Plans to place at next election proposition to raise by taxation $285,000 to be expended with present water fund surplus of $40,000 in securing adequate water supply from unpolluted sources.

S. C., York—See "Sewers."

Fla., Crystal Springs—Plans waterworks and sewer in various streets. E. V. Camp and associates, 1 North Moreland Ave., Atlanta, Ga., engrs.

Wis., Deerfield — E. Helmicks, village clk., making plans additional water supply, incl. 50,000 gal. concrete reservoir, one well 300 ft. deep, 12 in. diam., one 300 g.p.m. centrifugal pump, etc. $8,000. W. G. Kirchoffer, 22 North Carroll St., Madison, engr.

Minn., Moorhead—Plans election $[illegible],000 bonds improving present water and light plant.

Mo., St. Louis — Making preliminary plans 600 x 800 ft. rein.-con. covered storage reservoir, 35 ft. deep, 100 m.g. capacity, at Olive St. between Watson and Bonhome Rds., $1,500,000. Private plans.

Tex., Bay City — Election soon $50,000 bonds, waterworks improvements, incl. mains, pumping equipment, etc. Terrell Bartlett Engineers, 612 Calcasieu Bldg., San Antonio, engrs. Noted Apr. 16.

Tex., O'Donnell — Election soon $40,000 bonds for waterworks. Devlin Engineering Co., 119 Central Bldg., Amarillo, engrs.

Tex., Vernon — Voted $15,000 bonds, waterworks improvements. H. Mason, mayor. Noted Apr. 16.

Tex., Wharton—Made preliminary plans waterworks improvements, incl. well, mains and pumping equipment. Election soon $50,000 bonds for same. Terrell Bartlett Engineers, 612 Calcasieu Bldg., San Antonio, engrs. Noted Apr. 16.

Okla., Henryetta — Making plans new water supply, reservoir, pipe line, new pumping equipment and addition to filtration plant. $75,000. Holway Eng. Co., Wright Bldg., Tulsa, consult. engrs. Noted Apr. 16.

Okla., Okemah—Election June 15, $200,000 bonds for new waterworks, incl. mains, tank, hydrants, motor driven centrifugal pumps, etc. V. V. Long & Co., 1300 Colcord Bldg., Oklahoma City, engrs. Noted Mar. 5.

Okla., Okmulgee — Making plans new water supply on Salt Creek, incl. reservoir, pipe line and new pumping equipment. $1,000,000. Holway Eng. Co., Wright Bldg., Tulsa, consult. engrs. Noted Apr. 16.

Wash., Seattle—Bd. Pub. Wks. rejected bids May 15, 9,555 ft. 8 and 12 in. c.i. mains in 46th Ave. S. W. $29,070. Noted May 28.

Calif., Eureka—Making surveys for water supply system, incl. 10 mi. pipe line, 420 ft. impounding dam, 150 ft. high on Jacoby Creek. To exceed $350,000. N. B. Ellery, City Hall, Eureka, engr.

Calif., Orange—Plans election $1,200,000 bonds, for water plant, incl. 47,000,000 gal. reservoir, wells, pumping plant, distribution system, etc.

Ont., Mactier—Plans pumping plant and distribution system. $25,000. James Proctor & Redfern, 36 Toronto St., Toronto, engrs.

BIDS DESIRED

New York — June 9, by N. J. Hayes, comr. Water Supply, Gas & Electricity, Municipal Bldg., New York City, alterations to structures along 72 in. steel pipe line necessitated by construction of Conduit Blvd. in Queens and Nassau Counties.

Md., Baltimore—June 10, by Bd. Awards, superstructures of chemical filter and shelter buildings, pumping station and garage, at Montebello Ave. filters, Harford Rd. and 33rd St. Former bids rejected. V. B. Siems, City Hall, water engr. Noted May 21.

Ga., Macon—June 30, by City Clerk, steel and concrete reservoir. R. B. Cowen, city engr. Fuller & McClintock, 170 Bway., New York City, engrs. Noted May 28.

Fla., Deland—See "Streets and Roads."

Miss., Hernando—S. W. Eaton, city clk., taking bids 50,000 gal. tank on tower, 4 mi. c.i. and galvanized mains, 6 in. well and pumping equipment. $20,000. Noted Apr. 16.

O., Cincinnati—June 5, by Comrs. Hamilton Co., 22,760 ft. 6 and 8 in. c.i. mains in Water Supply Line 12, Dist. 4 (Harrison Park, Race Ave. and School Section Rd.), $50,757; 41,384 ft. 6 and 8 in. c.i. mains in Water Supply Line 19, Dist. 1 (Osceola Park, Maderia Heights and Drake Rd.), $86,349; 22,393 ft. 6 and 8 in. c.i. mains in Water Supply Line 11, Dists. 4 and 5 (Muddy Creek, Anderson Ferry and Foley Rds.), $51,446. L. C. Boyatt, Court House, engr.

O., Cleveland—See "Sewers."

O., Columbus—See "Streets and Roads."

O., Mansfield—June 18, by H. C. Lynch, dir. Pub. Serv., City Hall, 43 tons 4 and 6 in. c.i. pipe and fittings, 270 lin.ft. 1½ in. galvanized pipe, two 4 in. and three 6 in. valves, etc., f.o.b. Mansfield. W. C. Statler, city engr.

O., Medina—June 25, by Comrs. Medina Co., mains in Chippewa Sanitary Dist. $40,000. R. F. MacDowell, 1770 East 11th St., Cleveland, engr.

Waterworks (Continued)

Ill., Springfield—June 8, by City Comrs., water softening and iron removal plant, incl. 1 or more motor driven centrifugal pumps, of deep well turbine type, 2,800 g.p.m., 4,200 g.p.m. or 5,600 g.p.m. capacity. Burns & McDowell Eng. Co., Interstate Bldg., Kansas City, Mo., engrs.

Wis., Medford — June 12, by O. K. Blakeslee, city clk., watermain extensions, incl. 7,500 lin.ft. Class C iron pipe, four 6 in. valves, 4 valve boxes, 3 tons lead and 2 tons special fittings, 250 lbs. jute, etc. To exceed $15,000. McMahon & Clark Eng. Co., Menasha, engrs.

Wis., Milwaukee—June 8, by Dept. Pub. Wks., 9,814 ft. 6 ft. 6 in., 2,465 ft. 8 in. and 2,316 ft. 12 in. c.i. mains in various streets. City to furnish pipe. J. Schwada, city engr.

Minn., Minneapolis — June 10, by F. S. Gram, city purch. agt., 10 operating tables in filter operating gallery; three (each) high and low centrifugal service pumps, also synchronous motors for high and low centrifugal pump drives, etc., at Fridley Pumping Station.

S. D., Cavour — June 11, 1,500 ft. 4- to 8-in. c.i. pipe, 25,000 gal. elevated steel tank, and 10 hp. motor. Dakota Eng. Co., Mitchell, engrs.

S. D., Rockham—June 12, 5,590 ft. 4- to 8-in. c.i. pipe, 50,000 gal. elevated steel tank, 4 x 6 triplex centrifugal pump, also 20 hp. gas engine. Dakota Eng. Co., Mitchell, engrs.

Calif., Oakland — July 20, by East Bay Municipal Utility Dist., Ray Bldg., 1924 Bway., dam to impound waters of Mokelumne River, near Lancha Plana, aqueduct of tunnels, pumping plant, etc. J. H. Kimball, secy.; adv. E. N.-R. June 4. Noted May 28.

Ont., Windsor—June 5, by R. B. Braid, secy. Essex Border Utilities Comn., 42 hub end gate valves, 6- to 12-in. diam. J. C. Keith, Murray Bldg., engr.

Ont., Windsor—June 12, by E. B. Braid, secy. Essex Border Utilities Comn., 33,000 lin.ft. 14- to 24-in. diam. c.i. mains, also 20, 30 and 36 in. gate valves, and 30 in. automatic float and flap valves in various Streets. J. C. Keith, Murray Bldg., engr.

BIDS RECEIVED

Md., Baltimore—Bd. Awards, copper wire to Water Dept., from Chase Co., Waterbury, Conn., $13,900; brass service pipe fittings, from Mueller Co., Decatur, Ill., $43,400. Noted May 14.

O., Cleveland—Cuyahoga Co., 6,300 ft. 6 and 8 in. c.i. mains in Lee Rd. and Lee Harvard Subdivision, Impvt. 552, from Hanna & Michael, Erie Bldg., Cleveland, $19,702. Noted May 14.

CONTRACTS AWARDED

Massachusetts—Metropolitan Dist. Comn., 1 Ashburton Pl., Boston, about 7,380 lin.ft. 36 in. mains in Arlington and Somerville, to C. H. R. Constr. Co., 67 Harrison St., Boston $205,775; furnishing and laying 3,000 lin.ft. and laying 1,440 lin.ft. 48 in. c.i. in Somerville and Medford, to C. M. Byrne, 31 Church St., Winchester, $96,422. Noted Apr. 9 and May 14.

N. Y., Brooklyn — N. J. Hayes, comr. Water Supply, Gas & Electricity, Municipal Bldg., New York City, mains in Ave. I, 9th and Hegeman Aves., 53rd and East 93rd Sts., to N. DeStefano, 257 Glenn Ave., Tompkinsville, and L. Bignalo, $78,813. Noted May 28.

OFFICIAL PROPOSALS

OFFICIAL PROPOSALS

Bids: June 29.

Water Works Improvements

Ronceverte, W. Va.

Sealed proposals will be received by the City of Ronceverte, W. Va., at the office of the City Clerk up to 4 P.M., June 29, and then publicly opened and read, for the following water works improvements:

Filter plant having a capacity of 500,000 gallons per 24 hours and consisting of concrete intake, 4-hour settling basin, two filter units, piping, and electric pump room, 36,000 gal. filtered water well, and brick superstructure.

Furnishing and installing filter piping, and equipment; changing present high pressure electric centrifugal pumps to new plant; piping pumps and intake, and electric wiring.

Furnishing two raw water centrifugal pumps, 350 g.p.m. each against a total head of 25 ft. direct connected to 5 hp. electric motors, 220 volts a.c. with starters.

Relining and enlarging with concrete the old concrete reservoir to give a capacity of 250,000 gallons.

All bids must be accompanied by a certified check for not less than five per cent of the amount of bid drawn to the order of City of Ronceverte, W. Va. Checks of unsuccessful bidders will be returned within two weeks after bids have been opened and read.

An approved contract bond in a sum equal to one-half the amount of the contract will be required of each contractor, except in the case of contract to furnish the raw water pumps by manufacturer.

The right is reserved to reject any or all bids or to award contracts separately for each of the four above named items or all to one contractor.

All bids must be addressed to the City Clerk, Ronceverte, W. Va., and sealed and marked plainly on outside of envelope "Bids on Water Works Improvements."

Specifications and plans may be seen at the office of the City Clerk on and after June 15 or may be obtained after that date from the engineer upon the receipt of $5.00 which is the estimated cost of making up and mailing the extra copies. No charge will be made for specifications and bidding form for furnishing pumps.

A. S. WOODHOUSE, City Clerk,
Ronceverte, W. Va.

H. K. BELL, Engineer,
418 Hernando Building,
Lexington, Ky.

Bids: June 22.

Bridges

STATE OF NEW JERSEY
STATE HIGHWAY COMMISSION
Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the following:

Construction of two bridges on Route No. 2, Section No. 8, between Bridgeboro and Pensauken Creek, Burlington County.

Bridge at M. P. 5.7 over Pompeston Creek, having a twenty-two foot (22') encased I beam span and concrete abutments, for a 40' clear roadway.

Bridge at M. P. 7.3 over Swedes Run, having a fifteen foot (15') concrete slab span on concrete abutments, for a 40' clear roadway.

Bids for the above will be received at the office of the State Highway Commission, 9th floor, Broad Street Bank Building, Trenton, New Jersey, on Monday, June 22, 1925, at eleven o'clock (11:00 a.m.) Standard Time, and will be opened and read immediately thereafter.

Drawings, specifications and form of bid, contract and bond for the proposed work are on file in the office of the State Highway Department, Trenton, New Jersey, and may be inspected by prospective bidders. Plans will be furnished on a deposit of Ten Dollars ($10) upon application to the State Highway Department, Room 901, Broad Street Bank Building, Trenton, New Jersey. Bids must be made on the standard proposal forms in the manner designated in the 1924 specifications and must be enclosed in sealed special addressed envelopes bearing the name and address of the bidder and the name and section of route on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certified check shall not be less than $500.00 nor more than $20,000.00, and be delivered at the above place on or before the hour named. Copies of the standard proposal form and special addressed envelopes will be furnished on application. Bids not enclosed in special addressed envelopes will be considered informal and will not be opened.

Each bidder must accompany his bid with a certificate from a surety company duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of the said specifications, conditioned for the faithful performance of the provisions of the contract and specifications. Each bidder must also accompany his bid with a Statement of Equipment properly filled out.

By order of the State Highway Commission.

A. LEE GROVER,
Secretary.

Bids: July 2.

Bridge Re-construction

North Adams, Mass.

Notice is hereby given that sealed proposals will be received by the Commissioner of Public Works, in the City Hall, North Adams, Massachusetts, for the Reconstruction of the Holden Street Bridge, on the 2nd of July, 1925, at Two o'clock Advanced Standard Time, which is One o'clock Eastern Standard time.

The Bridge has an overall length of about 66 feet, and a width of 37 feet. It consists of a steel plate girder encased in reinforced concrete, and contains approximately:

145,000 pounds of Structural Steel;
24,000 pounds of Steel Rods;
372 Cubic Yards of Concrete;
1,044 Square Feet of Concrete Sidewalk;
260 Cubic Yards of Excavation.

Maps, plans and specifications may be seen and obtained, and proposal forms obtained on and after Tuesday, June 16, 1925, at the office of the Commissioner of Public Works, in the City of North Adams, Massachusetts; and at the office of the Consulting Engineer, G. Saxton Thompson, Room 7, 257 Broadway, Troy, New York, on the Deposit of Five Dollars ($5.00), which amount will be refunded upon the return of the plans and specifications in good condition.

The special attention of bidders is called to the "Information to Contractors" and "Information to Bidders" in the specifications.

Each proposal must be accompanied by cash, draft, or certified check, payable to the order of the Treasurer of the City of North Adams, for an amount equal to at least five (5) per cent of the amount of the proposal. In case this proposal shall be accepted by the Commissioner of Public Works, North Adams, Massachusetts, and the bidder shall fail to execute the contract and in all respects comply with all local ordinances or laws, then the Commissioner of Public Works may cash said check and deduct from the proceeds thereof or the said sum of money, an amount equivalent to the difference between the price of the bidder's proposal and the amount of the final contract; and upon further understanding that the said certified check or voucher will be returned upon the rejection of the bid.

The successful bidder will be required to execute a bond in an amount equal to the contract price with sufficient sureties, to be approved by the Commissioner of Public Works of the City of North Adams, and to execute the contract within ten (10) days after the award.

The City of North Adams reserves the right to reject any or all bids.

Subject to approval of Department of Highways.

EOLUS R. DOBLE,
Commissioner of Public Works.
North Adams, Massachusetts.
June 10, 1925.

Bids: July 6.

Subway Construction for Highway

STATE OF NEW JERSEY
STATE HIGHWAY COMMISSION
Trenton, N. J.

Contractors experienced in rock and earth excavation, the construction of bridges, retaining walls, and other structures of steel or masonry and/or reinforced concrete with necessary foundations, etc., street paving of concrete and granite block and in the other classes of work more particularly described in the plans, specifications and other documents and papers hereinafter referred to, are invited to tender bids on a unit price basis for the construction of the second section of the Highway known as Route No. 1 Extension, said section being situated between the New Jersey Junction Railway and Oakland Ave., in the City of Jersey City, N. J., a length of about 1,600 feet.

The work is to be done under the direction of the State Highway Commission and the State Highway Engineer, and in accordance with the provisions of Chapter 14, Laws of 1917, Chapter 253, Laws of 1922, and all Laws amendatory thereof or supplemental thereto.

The work contemplated under this contract includes briefly the following:

The clearing of the site of the work, including the demolishing of buildings as may be required.

The excavation for and the construction of a depressed roadway, surface streets, pavements, etc.

The relocation and reconstruction of subsurface structures such as sewers, water pipes, etc., etc.

Relocation of street railway tracks, poles, wires, etc.

The maintenance of Hoboken Avenue and adjacent streets and the street railway tracks within the area affected by the work, in such a manner that traffic can be maintained over them in a satisfactory manner.

Attention is called to the relation of this proposed work to the tracks of the Erie R.R., and other adjacent properties, and the contractor's responsibility for protecting these from the effects of blasting and other damages, incident to the consruction.

The principal items of work to be done and the approximate quantities of some of them are:

Excavation, earth and rock, 78,000 cu.yds.
Concrete, 11,500 cu.yds.
Structural and other steel, 1,700 tons.
Asphalt Paving, 8,000 sq.yds.
Reconstruction of sub-surface structures.

The plans and specifications, form of proposal, contract and bond are on file at the office of the State Highway Commission of New Jersey, Trenton, New Jersey. Copies can be obtained at the office of the Commission at Trenton, or at the office of the Engineer at 921 Bergen Avenue, Jersey City. A deposit of Fifty Dollars ($50.00) will be required by the State Highway Commission of New Jersey for each set of plans and specifications furnished. The whole amount of such deposit will be refunded on the return of the plans and specifications in good condition to the State Highway Commission on or before July 6th, 1925.

Bids for this work will be received at the office of the State Highway Commission, 9th Floor, Broad Street Bank Building, Trenton, New Jersey, on Monday, July 6th, 1925, at eleven o'clock—11:00 a.m., Standard Time, (12 o'clock—noon, daylight saving time), and will be opened and read immediately thereafter.

Bids must be made on the form of proposal attached to the form of Contract, copy of which will be furnished by the Commission, and must be enclosed in sealed special addressed envelopes, which also will be furnished, bearing the name and address of the bidder and plainly marked "Proposal for the Construction of Section 2, Route No. 1 Extension," and a certified check made payable to the order of the Treasurer of the State of New Jersey, for the sum of Fifty Thousand ($50,000.00) must accompany each bid, said check to be returned to the unaccepted bidders on award of the contract, and to the accepted bidder on his signing the contract and furnishing the bond.

If the accepted bidder fails to execute and deliver the contract and bond within the time specified, the check shall become the absolute property of the State of New Jersey.

Each bidder must accompany his bid with a certificate from a surety company or surety companies duly authorized to do business in the State of New Jersey and satisfactory to the State Highway Commission of New Jersey, stating that if the bidder is awarded the contract such surety company or companies will provide the bidder with a guaranty bond or bonds for a sum equal to the total amount of the bid.

The State Highway Commission of New Jersey reserves the right to reject any or all bids.

By order of the State Highway Commission.

A. LEE GROVER,
Secretary.

Bids: June 22.

Valves

BUREAU OF WATER
DEPARTMENT OF PUBLIC SAFETY
Lancaster, Pa.

VALVES

Two (2) 24-inch Altitude Valves, for use in connection with two Standpipes, one Standpipe being 105 feet high and the other 77 feet high, altitude valves to control height of water in the Standpipes.

Three (3) 24-inch Hand Operated, Back Geared Gate Valves. Two Bell Type with Graduated Scale showing degree of gate opening.

Three (3) 24-inch Electrically Operated Gate Valves, 110 Volt or 220 A.C. 60 Cycle Current. Two Bell Type with Graduated Scale showing degree of gate opening.

Three (3) 24-inch Hydraulically Operated Gate Valves. Two Bell Type. Pressure available is 25 pounds.

One (1) 24-inch Ninety (90°) Degree Elbow with Base. Two Bell for 125 lb. Pressure.

The Bureau of Water Reserves the right to reject any and all bids.

SIMON SHISSLER,
City Controller.

Bids: June 29.

Construction, Heating, etc.

MATTEAWAN STATE HOSPITAL
Beacon, N. Y.

Sealed proposals for Construction, Heating, Sanitary and Electric Work, Hospital Building and Kitchen and Dining Room Building (New Group) and Addition to Main Group, Matteawan State Hospital, Beacon, N. Y., will be received by Hon. James L. Long, Superintendent of Prisons, Capitol, Albany, N. Y., until 2 o'clock, P.M. (Eastern Standard Time), Monday, June 29th, 1925, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a deposit as a guarantee that bidder will enter into the contract if awarded same. Deposit shall consist of a certified check drawn upon some legally incorporated bank in this State and made payable to the State of New York or money equal to 5% of the amount of proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty days after official notice of award of contract and in accordance with the terms of Specifications Nos. 4549, 4550, 4551 and 4552. The right is reserved to reject any or all bids. Drawings and specifications may be examined at Matteawan State Hospital, Beacon, N. Y.; at the New York Office of the Department of Architecture, 18th floor, Flatiron Building, Broadway and 23rd St.; and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained by persons or firms engaged in the line of work required at the discretion of the Architect from the Department of Architecture, Capitol, Albany, N. Y., upon a deposit in the sum of $25.00 of money, or check made payable to the State of New York for each set of Construction drawings and specifications, and in the amount of $10.00 for each set of Heating, Sanitary or Electric drawings and specifications, which deposit will be returned if the drawings and specifications are received in good condition by the State Architect, Sullivan W. Jones, Capitol, Albany, N. Y.

Dated: June 1, 1925.

Bids: July 1.

Road Work

STATE OF RHODE ISLAND
STATE BOARD OF PUBLIC ROADS
Providence, R. I.

Sealed proposals for the reconstruction, under the provisions of the Federal Highway Act, of the following section of State highway will be received by the State Board of Public Roads at its office, State House, Providence, R. I., until 12 o'clock noon, Daylight Saving Time (11.00 a.m. Eastern Standard Time), Wednesday, July 1, 1925, at which time they will be opened and read in public:

Contract No. 2507—Federal Aid Project No. 25. North Kingstown and South Kingstown, Tower Hill Road, County of Washington.

Beginning at Allenton on the Tower Hill Road, so called, at the end of Federal Aid Project No. 9 and extending southerly on said road to Dale Carlia Corner.

7.69 miles of Reinforced Cement Concrete 18' wide, 8" thick.

Bids on the above contract must be made upon blank forms to be furnished by the Board. No bids will be accepted unless accompanied by a certified check for the sum of $200.00 payable to the State of Rhode Island.

The Board reserves the right to reject any or all bids and to give preference to towns or cities in accordance with Section 5 of Chapter 97 of General Laws of Rhode Island, Revision of 1923.

Plans may be examined and specifications and bidding blanks may be obtained at the office of the State Board of Public Roads, Room 10, State House, Providence, R. I., on and after Wednesday, June 17, 1925, every weekday (except Saturday and holidays), between the hours of 9 a.m. and 5 p.m., Daylight Saving Time (8 a.m. and 4 p.m., Eastern Standard Time), and on Saturdays from 9 a.m. to 12 m., Daylight Saving Time.

State Board of Public Roads.

OFFICIAL PROPOSALS

Bids: July 6.

Road Work

Hopewell Township, N. J.

Notice is hereby given that sealed bids will be received by Hopewell Township Committee for the construction of Pennington-Princeton Road in the Township of Hopewell, in the County of Mercer, with a Bituminous Penetration Macadam Pavement; estimated amount of pavement required is 10,736 square yards for one mile and 23,522 square yards for two and two-tenths miles, and opened and read in public at the office of the Hopewell Township Committee at J. W. Hart's Hall, one mile north of Pennington on the Pennington-Hopewell Road at 7 P.M., Standard Time, July 6, 1925.

Drawings, specifications and form of bid, contract and bond for proposed work, prepared by Sincerbeaux and Moore, Engineers, and approved by the State Highway Commission and Board of Freeholders, have been filed in the office of the said Engineers at Trenton and of said State Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the Engineers on proper notice and payment of a deposit of $10.00. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of the road on the outside, addressed to Hopewell Township Committee and must be accompanied by a Guaranty of Surety and a certified check for not less than ten (10) per cent of the amount bid, provided said check shall not be less than $500.00 nor more than $20,000.00, and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineers.

By order of Hopewell Township Committee.

(Signed) DAVID M. VOORHEES,
Clerk.

Bids July 6.

Storm Sewers

Plainfield, N. J.

Proposals will be received by the Common Council of the City of Plainfield, N. J., at the City Hall on Monday, July 6, 1925, for constructing storm sewers in various streets in said City.

Approximate estimate of quantities.
7,000 lin.ft. storm sewer, 15 in. to 36 in.
1,925 lin.ft. 12-in. inlet connections.
27 manholes.
91 inlets.
Also various minor items.

Bids received Monday, July 6, 1925, at 8:30 o'clock p.m. (Daylight Saving Time).

Certified check required $2,500.

Bond required 100 per cent of cost of work.

Plans, specifications and forms of proposal may be obtained at the office of the City Engineer, City Hall, Plainfield, New Jersey.

The Common Council reserves the right to reject any or all bids, to waive defects or informalities in bids, or accept any bid as it shall deem for the best interest of the City, and bids are only received subject to this condition.

The formal legal advertisement for this work appears in the Plainfield Courier-News.

ALEXANDER W. VARS,
City Engineer.

Dated: June 25, 1925.

OFFICIAL PROPOSALS

Bids: July 15.

Philadelphia Approach, Grading, Paving and Other Work, Delaware Avenue to Fourth Street

DELAWARE RIVER BRIDGE
CONTRACT NO. 23
Philadelphia, Pa.

Sealed proposals will be received by the Delaware River Bridge Joint Commission at Room 806 Widener Building, Philadelphia, Pa., until 1.30 o'clock p.m., Eastern Standard Time, July 15, 1925, when they will be publicly opened and read, for Contract No. 23 for grading, paving and other work along the Philadelphia approach between Delaware Avenue and Fourth Street and work in adjacent streets for the bridge over the Delaware River connecting the Cities of Philadelphia and Camden.

The work will include the grading of the site and of adjacent streets, the construction of sewers and inlets, the paving and repaving of roadways and sidewalks, alterations to the Frankford Elevated Railway structure and other work. The contract time for the work is eleven months. Unit price bids are asked with lump sum bids for certain portions of the work.

Copies of the contract and contract drawings may be obtained at the office of the Joint Commission upon deposit of Twenty-Five Dollars, which deposit will be returned upon the receipt of bid or the return in good condition of the contract books.

Each proposal must be accompanied by a certified check for Twenty-Five Thousand Dollars ($25,000) payable to the Delaware River Bridge Joint Commission, and Surety's consent must be shown. The bidder or bidders to whom the contract is awarded will be required to give bond in the sum of 50 per cent of the amount of the contract.

The right is reserved to reject any or all bids.

Delaware River Bridge Joint Commission.
GIFFORD PINCHOT,
Chairman.
JOSEPH K. COSTELLO,
Secretary.

Bids: July 6.

Street Improvement

White Plains, N. Y., June 9, 1925.

Sealed bids or proposals for the improvement of South Division Street, County Road No. 24, from First Street northeasterly to the Village line, with reinforced concrete pavement a distance of 1.31 miles in the Village of Peekskill, Westchester County, New York, will be received at the office of the Clerk of the Board of Supervisors, Court House, White Plains, N. Y., until 10 A.M., July 6th, 1925 (Daylight Saving Time).

Specifications, proposal sheets and all information relative to same may be procured at the office of the County Superintendent of Highways, Court House, White Plains, N. Y., upon making a deposit of ten dollars ($10.00), which will be refunded upon return of the plans in good condition within thirty (30) days of reception of bids.

BOARD OF SUPERVISORS
FRED L. MERRITT, Clerk.

OFFICIAL PROPOSALS

Bids: July 6.

Linoleum

GRASSLANDS HOSPITAL
White Plains, N. Y.

Proposals will be received for the furnishing and laying of linoleum required for the Nurses' Home and Employees' Dormitory in connection with the County Hospital in the Town of Mt. Pleasant, County of Westchester and State of New York and known as Grasslands Hospital.

Separate sealed bids or proposals will be received at the office of the Clerk of the Board of Supervisors at the Court House, White Plains, New York, until eleven A.M. (Daylight Saving Time), July 6th, 1925.

Specifications, drawings, and all information relative to the same may be procured either from Walker & Gillette, Architects, or from Fred L. Merritt, Clerk of the Board of Supervisors, Court House, White Plains, New York.

Each separate bid or proposal must be accompanied by a certified check in the sum of three per cent of the amount bid, made payable to the Treasurer of the County of Westchester, same to be forfeited to the County of Westchester as liquidated damages in the case of failure on the part of the successful bidder to enter into a contract for the execution of the work awarded to him and to furnish a satisfactory bond within five days after notice of such award.

Each successful bidder will be required to execute the contract and furnish a surety company bond in the sum equal to fifty per cent of the amount of the contract awarded to him, guaranteeing the faithful performance of the work, said contract and the bond to be in the form required by the County Attorney.

All bidders must submit their bids in the form of bid accompanying the drawings and specifications and in the manner indicated therein.

The Board of Supervisors reserves the right to reject any and all bids or to accept any proposal which it may deem for the best interest of the County of Westchester.

BOARD OF SUPERVISORS OF
WESTCHESTER COUNTY
FRED L. MERRITT, Clerk.

Bids: June 26.

Schenectady-Scotia Bridge (Fourth Contract)

STATE OF NEW YORK
DEPARTMENT OF PUBLIC WORKS
BUREAU OF CANALS
Albany, N. Y.
May 27, 1925.

Sealed proposals will be received by the undersigned at his office, No. 55 Lancaster Street, Albany, N. Y., until twelve o'clock noon (daylight saving time), of Friday, June 26, 1925, at which place and hour they will be publicly opened and read, for improving the New York State canals pursuant to the provisions of Chapter 147 of the Laws of 1903, and amendatory and supplemental laws, and Chapter 735, Laws of 1917, Chapter 634, Laws of 1919, Chapter 650, Laws of 1921, Chapter 436, Laws of 1922, and Chapter 688, Laws of 1923, as follows:

SCHENECTADY-SCOTIA BRIDGE
(Fourth Contract)

For constructing the pavements and completing the approaches of a bridge across the Mohawk River between the city of Schenectady and the village of Scotia, New York.

Sheets 1 to 8, inclusive.

Plans may be seen, and detailed specifications, engineers' estimates of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Bureau of Canals, Albany, N. Y.; at the office of the Division Engineer, Department of Public Works, at Utica, Syracuse, Rochester and Buffalo; and at the Terminal Warehouse, Pier 6, East River, New York City.

Blueprint copies of plans will be furnished by the State Engineer and Surveyor upon the receipt at his office in the Telephone Building, Albany, N. Y., of payment at the rate of twenty-five cents (25c.) per sheet. Refund will not be made for any blueprints which may be returned.

Monthly estimates will be paid of ninety per centum (90 per cent) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank, in good credit within the State, and payable at sight to the Commissioner of Canals and Waterways for five per centum (5 per cent) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Commissioner of Canals and Waterways.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of the contract shall be in such sum as shall be fixed by the Commissioner of Canals and Waterways, which sum shall not be less than fifty per centum (50 per cent) of the estimated cost of the work, according to the contract price, and an additional bond known as the labor bond in the sum of ten per centum (10 per cent) of the amount of the estimated cost of the work, according to the contract price will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Bureau of Canals, State Department of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Commissioner of Canals and Waterways of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject any or all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

ROYAL K. FULLER,
Commissioner of Canals and Waterways.

Bids: July 2.

Concrete Foundation for Standpipe

Seaside Heights, N. J.,
June 18, 1925.

Sealed proposals will be received by the Borough of Seaside Heights, New Jersey, at the Fire House, Seaside Heights, New Jersey, until 8 o'clock p.m., Daylight Saving Time, Thursday, July 2, 1925, for building a concrete foundation for a Standpipe 20 feet x 120 feet.

Plans and Specifications may be obtained from the Borough Clerk.

A certified check for two per cent (2%) of the amount of the bid must accompany each proposal.

The Borough reserves the right to reject any or all bids or to waive any informality in any bid if it appears to the best interest of the Borough so to do.

D. R. RICHMOND,
Borough Clerk.

SHERMAN & SLEEPER, Engineers,
501 Cooper Street,
Camden, New Jersey.

Bids: July 7.

Highway Work

Harrisburg, Pa.

Pennsylvania Department of Highways, Harrisburg, Pennsylvania. Bids will be received July 7, 1925, for construction of twelve projects, totaling approximately thirty-three miles, construction to be either bituminous surface on a concrete base or reinforced concrete. Projects situated in the following counties:

Armstrong, Indiana, Blair, Cambria, Bucks, Butler, Chester, Erie, Huntingdon, Lehigh, Lycoming, Montgomery, Washington.

Full particulars upon application to P. D. Wright, Secretary of Highways, Harrisburg, Pennsylvania.

Bids: July 2.

Bridge Re-construction

North Adams, Mass.

Notice is hereby given that sealed proposals will be received by the Commissioner of Public Works, in the City Hall, North Adams, Massachusetts, for the Reconstruction of the Holden Street Bridge, on the 2nd of July, 1925, at Two o'clock Advanced Standard Time, which is One o'clock Eastern Standard time.

The Bridge has an overall length of about 66 feet, and a width of 37 feet. It consists of a steel plate girder encased in reinforced concrete, and contains approximately:

145,000 pounds of Structural Steel;
24,000 pounds of Steel Rods;
372 Cubic Yards of Concrete;
1,044 Square Feet of Concrete Sidewalk;
260 Cubic Yards of Excavation.

Maps, plans and specifications may be seen and obtained, and proposal forms obtained on and after Tuesday, June 16, 1925, at the office of the Commissioner of Public Works, in the City of North Adams, Massachusetts; and at the office of the Consulting Engineer, G. Saxton Thompson, Room 7, 257 Broadway, Troy, New York, on the Deposit of Five Dollars ($5.00), which amount will be refunded upon the return of the plans and specifications in good condition.

The special attention of bidders is called to the "Information to Contractors" and "Information to Bidders" in the specifications.

Each proposal must be accompanied by cash, draft, or certified check, payable to the order of the Treasurer of the City of North Adams, for an amount equal to at least five (5) per cent of the amount of the proposal. In case this proposal shall be accepted by the Commissioner of Public Works, North Adams, Massachusetts, and the bidder shall fail to execute the contract and in all respects comply with all local ordinances or laws, then the Commissioner of Public Works may cash said check and deduct from the proceeds thereof or the said sum of money, an amount equivalent to the difference between the price of the bidder's proposal and the amount of the final contract; and upon further understanding that the said certified check or voucher will be returned upon the rejection of the bid.

The successful bidder will be required to execute a bond in an amount equal to the contract price with sufficient sureties, to be approved by the Commissioner of Public Works of the City of North Adams, and to execute the contract within ten (10) days after the award.

The City of North Adams reserves the right to reject any or all bids.

Subject to approval of Department of Highways.

EOLUS R. DOBLE,
Commissioner of Public Works
North Adams, Massachusetts.
June 10, 1925.

Bids: June 29.

Sewers, Manholes, etc.

Butler, N. J.

The Council of the Borough of Butler, N. J., will receive at its meeting, to be held on the 29th day of June, 1925, at 8 p.m. (daylight saving time), sealed proposals for furnishing materials and doing all other work required for the construction of sewers, manholes and appurtenances on Bartholdi Avenue.

The work includes approximately 3,375 feet of 8-inch vitrified tile sewer and 14 manholes.

Plans may be seen and specifications and forms of proposals obtained at the office of the Borough Clerk at Butler, N. J., or at the office of Clyde Potts, 30 Church Street, New York City.

Plans and specifications may be taken away upon the payment of five dollars ($5.00), the same to be returned if the plans are returned within twenty (20) days, in good condition.

Each bid must be accompanied by a certified check for not less than 10% of the amount of the bid, payable to the order of the Borough of Butler, N. J.

The Borough Council reserves the right to reject any and all proposals and to waive any informality in the proposals received, and to accept any proposal which they deem to be most favorable to the interests of the Borough.

JOHN F. BORMUTH,
Borough Clerk.

Road Work

STATE OF RHODE ISLAND
STATE BOARD OF PUBLIC ROADS
Providence, R. I.

Sealed proposals for the reconstruction of the following section of State highway will be received by the State Board of Public Roads at its office, State House, Providence, R. I., until 12 o'clock noon, Daylight Saving Time (11:00 A.M., Eastern Standard Time) on Wednesday, July 1, 1925, at which time they will be opened and read in public:

Contract No. 2508
Middletown-Portsmouth West Main Road
Newport County

Beginning at Two-Mile Corner, so-called, on the West Main Road and extending northerly on said road for 2.91 miles approx.

2.91 miles Bituminous Macadam (Penetration Method) 18 ft. wide
Variable thickness. Trap Rock.

Bids on the above contract must be made upon blank forms to be furnished by the Board. No bids will be accepted unless accompanied by a certified check for the sum of $200.00 payable to the State of Rhode Island.

The Board reserves the right to reject any or all bids and to give preference to towns or cities in accordance with Section 5 of Chapter 97 of the General Laws of Rhode Island, Revision of 1923.

Plans may be examined and specifications and bidding blanks may be obtained at the office of the State Board of Public Roads, Room 10, State House, Providence, R. I., on and after Wednesday, June 17, 1925, every weekday (except Saturday and holidays) between the hours of 9 A.M. and 5 P.M., Daylight Saving Time (8 A.M. and 4 P.M., Eastern Standard Time) and on Saturdays from 9 A.M. to 12 M., Daylight Saving Time.

STATE BOARD OF PUBLIC ROADS
ABRAM L. ATWOOD,
BENJAMIN F. ROBINSON,
FRANK COLE,
JOHN W. HANLEY,
F. A. H. BODINGTON,

Bids: July 7.

Road Work

Dade City, Fla.
June 8, 1925.

Sealed proposals will be received by the Board of County Commissioners, Pasco County, Florida, until 12 o'clock Noon, on July 7th, 1925, for the improvement of the following Projects, to wit:

Project No. 1.—The road from Trilby north to the Hernando County line. Approximately 1 mile. Bituminous surface on rock base 15 feet wide.

Project No. 2.—The road from San Antonio south through Wesley Chapel connecting with Road No. 7, Gulf Special District, approximately 1 mile east of State road No. 5. Distance approximately 18 miles. Bituminous surface on rock base 15 feet wide.

Project No. 3.—Road from Zephyrhills west to road hereinbefore mentioned as Project No. 2, near Wesley Chapel. Distance approximately 10 miles, bituminous surface on rock base, 15 feet wide.

Project No. 4.—A road from Port Richey to Hudson. Distance approximately 8 miles. Bituminous surface on rock base, 15 feet wide.

Project No. 5.—A road starting from a point about 4 miles west of Zephyrhills as road mentioned in Project No. 2, and running south to the Hillsborough County line, 4 miles approximately is the distance. Bituminous surface on rock base, 15 feet wide.

Project No. 7.—Concrete curbing over Sumner Hill on Jessamine Drive. Distance approximately 2,000 feet.

Project No. 8.—The road from Odessa east connecting with Project No. 2, 1 mile east of State road No. 5. Approximately 9½ miles; 8½ miles of bituminous surface on rock base 9 feet wide and 1 mile of bituminous surface on rock base, 15 feet wide.

Project No. 9.—The road from New Port Richey to Moon Lake and connecting with Pasco Road. Distance approximatley 12 miles. Bituminous surface on rock base, 9 feet wide.

Project No. 10.—A road from the north end of the National Highway near Lacoochee in an easterly direction to Slaughter. Distance approximately 6 miles. Drained and graded 18 feet wide.

Project No. 11.—St. Joseph road from a point on Jessamine Drive ¼ mile west of Dade City to St. Joseph. Distance approximately 7 miles, bituminous surface on rock base, 15 feet wide.

Project No. 12.—The completion of road No. 6, Gulf Special District. Distance approximately 2 miles, bituminous surface on rock base, 9 feet wide.

Project No. 13.—The completion of road No. 4 Gulf Special District. Distance approximately 1½ miles, bituminous surface on rock base, 9 feet wide.

Project No. 14.—The completion of road No. 3, Gulf Special District. Distance approximately 1 mile. Bituminous surface on rock base, 9 feet wide.

Project No. 15.—A road beginning in Trilby where National Highway turns east towards Lacoochee and running thence westerly for a distance approximately ½ mile. Bitminous surface on rock base, 15 feet wide.

Project No. 16.—A road running northeast and southwest through Ehren, connecting Pasco Road with State Road No. 5. Distance approximately 6 miles. Bituminous surface on rock base, 15 feet wide.

Project No. 17.—A road starting from the end of the rock road in Dade City; running easterly to Lanier Bridge across the Withlacoochee River. Distance approximately 4½ miles. Bituminous surface on rock base, 15 feet wide.

Project No. 18.—A road starting from Pasco Road at or near the southwest corporate limits of Dade City; running southerly along the Fort King Road to Zephyrhills and to connect with the National Highway. Distance approximately 9½ miles. Bituminous surface on rock base, 15 feet wide.

Project No. 19.—A road starting from a point at or near east end of Meridian Street in Dade City, Florida; running South along present graded road through Ellerslie and Richland to the Polk County line. Distance approximately 12 miles. Bituminous surface on rock base, 15 feet wide.

Project No. 20.—A road beginning at the north end of the clay road from St. Joseph to lake Iola and running in a northeasterly direction to Jessamine Drive. Distance approximately 2 miles. Drained, graded 18 feet wide and sand clayed 9 feet wide.

Project No. 21.—A road beginning at St. Joseph and running west about 2 miles; thence northerly about 2 miles; thence west about 2 miles; thence south about 6½ miles, following present established road as nearly as practicable. Bituminous surface on rock base, 9 feet wide.

Project No. 22.—For the completion of a road beginning at Jessamine Groves on the Jessamine Drive and connecting with the St. Joseph road south of St. Joseph. Distance approximately 3 miles. Bituminous surface on rock base, 9 feet wide. Also a road beginning at the Pasco Road in San Antonio and running north to the St. Joseph Road. Distance approximately 3 miles. Bituminous surface on rock base, 15 feet wide.

Project No. 23.—Begin at a point on Jessamine Drive in Blanton and run northeasterly along the west side of the Atlantic Coast Line Railroad to Trilby, to connect with west end of road described in Project No. 15, approximately 6 miles, to be graded 20 feet wide and surfaced with sand clay, 15 feet wide.

Project No. 24.—A road beginning at the south end of the clay road at or near Prospect and running southerly to road described in Project No. 3. Distance approximately 5 miles, graded and clayed where necessary.

Project No. 25.—For the completion of road No. 4, Highlands Special District, beginning at the National Highway ½ mile north of Zephyrhills and running in an easterly direction to road designated Project No. 19. Approximately 4½ miles. Bituminous surface on rock base, 15 feet wide.

All proposals must be upon the blank forms provided, conform to specifications, etc., sealed and addressed to A. J. Burnside, Clerk of the Board of County Commissioners, Dade City, Florida.

A certified check in amount of three (3%) per cent of the proposal with a maximum check for $15,000.00 and made payable to B. A. Thomas, Chairman, Board County Commissioners, Pasco County, Florida, shall accompany each and every proposal as a guarantee of good faith on the part of the bidder.

The commissioners reserve the right to reject any or all proposals; to let contracts covering each and every road, or to let separately the Rock Base, the Wearing Surface, or to let a contract coveringg any portion of the work that may appear to them to be the best interests of the County.

Each and every contractor will be required to give a surety bond in amount of thirty (30%) per cent of the estimated cost of their contract for the faithful completion and execution of the same. Said Surety Bond to be secured through some local agent of a Surety Company represented in Pasco County and residing in said Pasco County, Florida.

Each bidder must accompany his bid with a certificate from a surety company authorized to do business in this State, and represented in Pasco County as above mentioned, stating that such surety company will provide said bidder with a bond in such sum as is required and in accordance with the provisions of the said specifications, conditioned for the faithful performance of the provisions of the contract and specifications, aforesaid.

Plans, profiles and specifications may be examined at the office of the Engineer, Dade City, Florida, on and after the 26th day of June, 1925. Copies of the Specifications may be had by depositing Five (5) Dollars therefor.

The Board of County Commissioners will sit at 1:30 o'clock, P.M. on the above mentioned date for the purpose of opening publicly reading and considering any and all proposals that may have been submitted.

Dated at Dade City, Florida, this the 8th day of June, 1925.

A. J. BURNSIDE,
Clerk, Board County Commissioners.

NOTE.—The above work is covered by an issue of One Million Three Hundred Thirty Thousand ($1,330,000.00) Dollars. The bonds have been sold and the amount will be available for the work.

Bids: July 8.

Bridges

Freehold, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Monmouth, for the construction of Bridges No. F31, 32, 33, 34, 37 and Mn-52, the first five of which are located on the Elton-Adelphia Road, and the last on the Tennent-East Freehold Road, at Tennent Church, and opened and read in public at the rooms of said Board, Court House, Freehold, New Jersey, on July 8th, 1925, at 11.00 a.m., daylight saving time.

The proposed work will consist in the removal and disposition of the present structures, and the construction of the new culverts complete in every detail.

Drawings and specifications for the proposed work have been filed in the office of the County Engineer at 60 Broad Street, Red Bank, New Jersey, and may be inspected by prospective bidders, during business hours.

The standard proposal form is attached to the specifications. Copies of the proposal form will be furnished on application to the Engineer.

Drawings and specifications will be furnished to prospective bidders upon payment of ten dollars ($10.00) and will be returned only to those submitting a regular bid, and who return the drawings and specifications in good condition.

Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of proposed work on the outside, addressed to the Board of Chosen Freeholders of the County of Monmouth, and must be accompanied by a certified check for a sum not less than ten (10) per cent of the amount bid on the work; payable to the order of the County Treasurer and a surety company certificate stating that said surety company will provide the bidder with a bond in the amount of one hundred (100) per cent of the contract price, and must be delivered at the place and before the hour for opening of bids.

The Board of Chosen Freeholders of the County of Monmouth reserves the right to reject any or all bids if deemed to the best interests of the County so to do.

By order of the Board of Chosen Freeholders of the County of Monmouth.

BRYANT B. NEWCOMB,
Director.

Attest:
CHARLES E. COLE,
Clerk.
Freehold, N. J., June 3, 1925.

OFFICIAL PROPOSALS

Bids: July 7.

Construction and Repair Work

STATE OF NEW YORK
DEPARTMENT OF PUBLIC WORKS
BUREAU OF CANALS

Albany, N. Y.,
June 4th, 1925.

Sealed proposals will be received by the undersigned at his office, No. 55 Lancaster Street, Albany, N. Y., until twelve o'clock noon (daylight saving time), of Tuesday, July 7th, 1925, at which place and hour they will be publicly opened and read, for improving the New York State canals pursuant to the provisions of Chapter 147, Laws of 1903, and amendatory and supplemental laws, and Chapter 217, Laws of 1925, as follows:

CONTRACT NO. 229
ERIE CANAL—SECTION 5.

For new construction and repair work at the Delta Dam. Contract plans, sheets 1 to 4, inclusive.

Plans may be seen, and detail specifications, engineers' estimates of quantities, proposal blanks, form of contract, and bonds required and other information for proposers may be had at the office of the Bureau of Canals, Albany, N. Y.; at the office of the Division Engineer, Department of Public Works, at Utica, Syracuse, Rochester and Buffalo; and at the Terminal Warehouse, Pier 6, East River, New York City.

Blueprint copies of plans will be furnished by the State Engineer and Surveyor upon the receipt at his office in the Telephone Building, Albany, N. Y., of payment at the rate of fifteen cents (15c.) per sheet. Refund will not be made for any blueprints which may be returned.

Monthly estimates will be paid of ninety per centum (90 per cent) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank in good credit, within the State and payable at sight to the Commissioner of Canals and Waterways for five per centum (5 per cent) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time in which case the amount of the deposit will be refunded by the Commissioner of Canals and Waterways.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of the contract shall be in such sum as shall be fixed by the Commissioner of Canals and Waterways, which sum shall not be less than fifty per centum (50 per cent) of the estimated cost of the work, according to the contract price, and an additional bond known as the labor bond, in the sum of ten per centum (10 per cent) of the amount of the estimated cost of the work, according to the contract price will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Bureau of Canals, State Department of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Commissioner of Canals and Waterways of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject any or all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

ROYAL K. FULLER,
Commissioner of Canals and Waterways.

OFFICIAL PROPOSALS

Bids: July 1.

Road Work

Newton, N. J.

Notice is hereby given that sealed bids will be received by the Board of Freeholders of the County of Sussex for the paving of the Ross' Corner Sussex Road, Section 1 B in the Township of Frankford in the County of Sussex with a Reinforced Concrete Surface, estimated amount of surface pavement required is 14,222 sq.yds. and for the improvement of the Sussex Coleville Road in the Township of Wantage in the County of Sussex with a shale surface, pavement required is 60,335 square yards, excavation required 55,452 cu.yds., and opened and read in public at the Freeholders Office, Newton, N. J., on July 1st, 1925, at 11:30 a.m., Daylight Saving Time.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by Harvey Snook, County Engineer, and approved by the State Highway Commission, have been filed in the office of the said engineer at Newton, N. J., and of said State Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the Engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and name of road on the outside, addressed to Board of Chosen Freeholders, County of Sussex, Newton, N. J., and must be accompanied by a certificate of the Bonding Company and a certified check for not less than ten (10) per cent of the amount bid, provided said check shall not be less than $500.00 nor more than $20,000.00, and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to Engineer.

The Board reserves the right to reject any or all bids.

By order of the County of Sussex.
(Signed) NORMAN B. ANDERSON,
Clerk.

Bids: July 6.

Subway Construction for Highway

STATE OF NEW JERSEY
STATE HIGHWAY COMMISSION

Trenton, N. J.

Contractors experienced in rock and earth excavation, the construction of bridges, retaining walls, and other structures of steel or masonry and/or reinforced concrete with necessary foundations, etc., street paving of concrete and granite block and in the other classes of work more particularly described in the plans, specifications and other documents and papers hereinafter referred to, are invited to tender bids on a unit price basis for the construction of the second section of the Highway known as Route No. 1 Extension, said section being situated between the New Jersey Junction Railway and Oakland Ave., in the City of Jersey City, N. J., a length of about 1,600 feet.

The work is to be done under the direction of the State Highway Commission and the State Highway Engineer, and in accordance with the provisions of Chapter 14, Laws of 1917, Chapter 253, Laws of 1922, and all Laws amendatory thereof or supplemental thereto.

The work contemplated under this contract includes briefly the following:

The clearing of the site of the work, including the demolishing of buildings as may be required.

The excavation for and the construction of a depressed roadway, surface streets, pavements, etc.

The relocation and reconstruction of subsurface structures such as sewers, water pipes, etc., etc.

Relocation of street railway tracks, poles, wires, etc.

The maintenance of Hoboken Avenue and adjacent streets and the street railway tracks within the area affected by the work, in such a manner that traffic can be maintained over them in a satisfactory manner.

Attention is called to the relation of this proposed work to the tracks of the Erie R.R., and other adjacent properties, and the contractor's responsibility for protecting these from the effects of blasting and other damages, incident to the construction.

The principal items of work to be done and the approximate quantities of some of them are:

Excavation, earth and rock, 78,000 cu.yds.
Concrete, 11,500 cu.yds.
Structural and other steel, 1,700 tons.
Asphalt Paving, 8,000 sq.yds.
Reconstruction of sub-surface structures.

The plans and specifications, form of proposal, contract and bond are on file at the office of the State Highway Commission of New Jersey, Trenton, New Jersey. Copies can be obtained at the office of the Commission at Trenton, or at the office of the Engineer at 921 Bergen Avenue, Jersey City. A deposit of Fifty Dollars ($50.00) will be required by the State Highway Commission of New Jersey for each set of plans and specifications furnished. The whole amount of such deposit will be refunded on the return of the plans and specifications in good condition to the State Highway Commission on or before July 6th, 1925.

Bids for this work will be received at the office of the State Highway Commission, 9th Floor, Broad Street Bank Building, Trenton, New Jersey, on Monday, July 6th, 1925, at eleven o'clock—11:00 a.m., Standard Time, (12 o'clock—noon, daylight saving time), and will be opened and read immediately thereafter.

Bids must be made on the form of proposal attached to the form of Contract, copy of which will be furnished by the Commission, and must be enclosed in sealed special addressed envelopes, which also will be furnished, bearing the name and address of the bidder and plainly marked "Proposal for the Construction of Section 2, Route No. 1 Extension," and a certified check made payable to the order of the Treasurer of the State of New Jersey, for the sum of Fifty Thousand ($50,000.00) must accompany each bid, said check to be returned to the unaccepted bidders on award of the contract, and to the accepted bidder on his signing the contract and furnishing the bond.

If the accepted bidder fails to execute and deliver the contract and bond within the time specified, the check shall become the absolute property of the State of New Jersey.

Each bidder must accompany his bid with a certificate from a surety company or surety companies duly authorized to do business in the State of New Jersey and satisfactory to the State Highway Commission of New Jersey, stating that if the bidder is awarded the contract such surety company or companies will provide the bidder with a guaranty bond or bonds for a sum equal to the total amount of the bid.

The State Highway Commission of New Jersey reserves the right to reject any or all bids.

By order of the State Highway Commission.

A. LEE GROVER,
Secretary.

Bids: July 13.

Water Mains, Pumping Station, Etc.

Covington, Ky.

Sealed proposals will be received at the office of the Dixie Highway Water Co., No. 605 Coppin Building, Covington, Kentucky, until Two o'clock p.m. of Monday, July 13th, 1925, for the furnishing and laying of Water Mains; Construction of a Pumping Station; the furnishing and erection of Pumping and Auxiliary Machinery and Fittings; and the furnishing and erection of an Elevated Steel Water Tank.

Plans and specifications are on file at the office of the Dixie Highway Water Co., No. 605 Coppin Building, Covington, Kentucky, and are open to the inspection of all parties interested.

Each proposal must be accompanied by a surety company bond or certified check, of an amount equal to at least ten (10) per cent of the total bid, as a guaranty that if proposal be accepted a contract will be entered into.

The bidder or bidders to whom contract is awarded will be required to furnish a surety company bond in an amount equal to at least fifty (50) per cent of the total bid.

The Company reserves the right to reject any or all bids.

Bidders must use the printed forms, as none other will be considered.

THE DIXIE HIGHWAY WATER COMPANY.

Bids: July 6.

Road Work

STATE OF NEW JERSEY
STATE HIGHWAY COMMISSION
Trenton, N. J.

NOTICE IS HEREBY GIVEN that sealed bids will be received by the State Highway Commission of New Jersey for the following:

ROUTE NO. 4, SECTION NO. 32
Construction of Route No. 4, Section No. 32, Rahway to Perth Amboy, in the Counties of Middlesex and Union. Estimated 25,371 cu.yds. earth excavation; 1,200 cu.yds. soft rock excavation; 500 cu.yds. hard rock excavation; 80,200 sq.yds. 9" reinforced concrete pavement, together with the construction of one small span bridge.

Bids for the above will be received at the office of the State Highway Commission, 9th floor Broad Street Bank Building, Trenton, New Jersey, on Monday, July 6, 1925, at eleven o'clock (11:00 A.M.), Standard Time, and will be opened and read immediately thereafter.

Drawings, specifications and form of bid, contract and bond for the proposed work are on file in the office of the State Highway Department, Trenton, New Jersey, and may be inspected by prospective bidders. Plans will be furnished on a deposit of Ten Dollars ($10) for each project upon application to the State Highway Department, Room 901, Broad Street Bank Building, Trenton, New Jersey. Bids must be made on the standard proposal forms in the manner designated in the 1924 specifications and must be enclosed in sealed special addressed envelopes bearing the name and address of the bidder and name and section of route on the outside, and must be accompanied by a certified check drawn to the order of the Treasurer of the State of New Jersey for not less than ten per cent (10%) of the amount of the bid, provided that the said certified check shall not be less than $500.00 nor more than $20,000.00 and be delivered at the above place on or before the hour named. Copies of the standard proposal form and special addressed envelopes will be furnished on application. Bids not enclosed in special addressed envelopes will be considered informal and will not be opened.

Each bidder must accompany his bid with a certificate from a surety company duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in and in accordance with the provisions of the said specifications, conditioned for the faithful performance of the provisions of the contract and specifications. Each bidder must also accompany his bid with a statement of equipment properly filled out.

By order of the State Highway Commission.

A. LEE GROVER,
Secretary.

Bids: July 2.

Road Work

Bids: June 30.

Construction, Heating, etc.

BROOKLYN STATE HOSPITAL
CREEDMOOR DIVISION
Brooklyn, N. Y.

Sealed proposals for Construction, Heating, Sanitary, Electric Work, Refrigeration (Buildings A, B, C, H, I, K, L, M, N, T, X, Y, EE, FF, HH, etc.), Creedmoor Division, Brooklyn State Hospital, Queens (Creedmoor), Long Island, N. Y., will be received by the State Hospital Commission, Capitol, Albany, N. Y., until 2 o'clock, P. M. (Eastern Standard Time), Tuesday, June 30th, 1925, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a deposit as a guarantee that bidder will enter into the contract if awarded same. Deposit shall consist of a certified check drawn upon some legally incorporated bank in this State and made payable to the State of New York or money equal to 5% of the amount of proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty days after official notice of award of contract and in accordance with the terms of Specifications Nos. 4481, 4482, 4483, 4484 and 4485. The right is reserved to reject any or all bids. Drawings and specifications may be examined at Brooklyn State Hospital, Brooklyn, N. Y.; at the New York Office of the Department of Architecture, 18th floor, Flatiron Building, Broadway and 23rd St.; and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained by persons or firms engaged in the line of work required at the discretion of the Architect from the Department of Architecture, Capitol, Albany, N. Y., upon a deposit of $100 of money, or check made payable to the State of New York for each set of Construction drawings and specifications and in the amount of $25.00 for each set of Heating, Sanitary, Electric or Refrigeration drawings and specifications, which deposit will be returned if the drawings and specifications are received in good condition by the State Architect, Sullivan W. Jones, Capitol, Albany, N. Y.

DATED: June 1, 1925.

Bids: July 1.

Paving, Curbing, etc.

Georgetown, S. C.

Sealed bids will be received until 12 o'clock July 1, 1925, at office City Clerk, Georgetown, S. C., for paving and other municipal improvements, consisting of the following approximate quantities:

23,000 sq.yd. street pavement.
14,000 lin.ft. curb and gutter.
20,000 sq.yd. sidewalk with necessary storm sewers, manholes, etc.

Plans, specifications, etc., will be mailed on request to Johnson & Roberts, Engineers, Marion, S. C., on receipt of $5 without refund.

C. B. COLBERT, Mayor,
Georgetown, S. C.

Bids: July 6.

Sewer

Lansdale, Pa.

Bids will be received by the Council of the Borough of Lansdale, Pa., up to 7 p.m. Standard Time, July 6, 1925, for:

(a) Constructing 3,800 feet Vitrified Pipe Sewer 20 inches in diameter and 13 manholes.
(b) Constructing 420 feet 5' x 5' reinforced concrete culvert.
(c) Constructing a Sewage Treatment Plant.

Bids must be sealed, made on blanks furnished by the Engineers and accompanied by a certified check to the amount of 2% of the amount of the bid. The plans and specifications may be obtained at the office of Albright & Mebus, 1502 Locust St., Philadelphia, Pa., or Glenside, Pa., upon the receipt of $10.00, which will be refunded if the plans and specifications are promptly returned in good condition.

The Borough reserves the right to reject any or all bids.

By order of Council.

NELSON C. B. KRIEBEL,
Secretary.

June 8, 1925.

OFFICIAL PROPOSALS

Bids: July 21.

Construction, Heating, Sanitary Work, etc.

Ithaca, N. Y.

Sealed proposals for Construction, Heating, Sanitary and Electric Work, Additions and Alterations to Veterinary Hospital, New York State Veterinary College, Cornell University, Ithaca, N. Y., will be received by Mr. C. B. Bostwick, Comptroller, Cornell University, Ithaca, N. Y., until 11 o'clock a.m., (Eastern Standard Time), Tuesday, July 21, 1925, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a deposit as a guarantee that bidder will enter into the contract if awarded same. Deposit shall consist of a certified check drawn upon some legally incorporated bank in this State and made payable to the State of New York or money equal to 5% of the amount of proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty days after official notice of award of contract and in accordance with the terms of Specifications Nos. 4542, 4543, 4544 and 4545. The right is reserved to reject any or all bids. Drawings and specifications may be examined at the New York State Veterinary College, Cornell University, Ithaca, N. Y.; at the New York Office of the Department of Architecture, 18th Floor Flatiron Building, Broadway & 23rd Street; and at the Department of Architecture, Capitol, Albany, N. Y. Drawings, specifications and blank forms of proposal may be obtained by persons or firms engaged in the line of work required at the discretion of the Architect from the Department of Architecture, Capitol, Albany, N. Y., upon the deposit of a certified check, or money, in the sum of $10.00 made payable to the State of New York, for each set of drawings and specifications, which deposit will be returned if the drawings and specifications are received in good condition by the State Architect, Sullivan W. Jones, Capitol, Albany, N. Y.

Dated: June 17, 1925.

Bids: July 15.

Highway Construction

STATE DEPARTMENT OF PUBLIC WORKS
BUREAU OF HIGHWAYS

Albany, N. Y.

Sealed proposals will be received by the undersigned at the office, No. 55 Lancaster Street, Albany, N. Y., until one o'clock p.m. on Wednesday, July 15, 1925, advanced standard time, which is twelve o'clock noon eastern standard time, for the construction of highways in the following counties:

CAYUGA.....(one highway: 3.01 miles)
MADISON.....(one highway: 5.58 miles)
ONEIDA.....(one highway: 5.58 miles)
ST. LAWRENCE.....(one highway: 8.53 miles)
WAYNE.....(one highway: 5.90 miles)
WYOMING.....(one highway: 1.26 miles)
STEUBEN.....(one highway: 5.58 miles)

Also for the reconstruction of the following:

ALBANY.....(one contract: 1.04 miles)
CAYUGA.....(one contract: 4.91 miles)
COLUMBIA.....(one contract: 1.78 miles)
ESSEX.....(one contract: 7.64 miles)
FRANKLIN.....(one contract: 0.66 miles)
ONONDAGA.....(one contract: 1.06 miles)
SUFFOLK.....(one contract: 1.13 miles)
STEUBEN.....(one contract: 8.09 miles)

Maps, plans, specifications and estimates may be seen and proposal forms obtained at the office of the Bureau in Albany, N. Y., and also at the offices of the division engineers in whose division the roads are located. The addresses of the division engineers and the counties in which they are in charge will be furnished upon request.

The especial attention of bidders is called to "General Information for Bidders" in the itemized proposal, specifications and contract agreement.

A. W. BRANDT,
Commissioner of Highways.

OFFICIAL PROPOSALS

Bids: July 7.

Water-works

New London, N. H.

Sealed proposals on blank forms addressed to the Water Commissioners, New London, N. H., will be received until 12 o'clock, noon, Tuesday, July 7th, 1925, for doing the following work:

Building earth dam containing about 1,800 cu.yds. of earth and about 75 cu.yds. of concrete. Clearing and grubbing about three-fourths acre at reservoir site, and laying about five miles of 12", 10" and 6 inch wood pipe.

Plans and specifications can be seen at the office of the Water Commissioners. Each bid shall be accompanied by a certified check for five hundred dollars, made payable to Treasurer of Water Commission.

The Board reserves the right to reject any and all bids or to award contracts for any parts of the work.

BOARD OF WATER COMMISSIONERS,
New London, N. H.

Maximum Competition Is Assured

these advertisers through *Engineering News-Record's* large NATIONAL circulation, reaching almost every worthwhile contractor, dealer, and manufacturer in the country interested in bidding on public work contracts. It is the DOMINANT MEDIUM for advertising contracts for work, material, and supplies for towns, cities, counties, state and government departments, and private organizations.

Bids: July 9.

Raising of Dam and Highway

Woonsocket, R. I.

Sealed proposals endorsed "Proposals for Raising of Dam at Reservoir No. 3, Woonsocket Water Works, and located in the Towns of Smithfield and North Smithfield, R. I., and Raising of Highway near the Stephen Wright Place (so-called)," will be received by the Board of Water Commissioners at their office, City Hall, Woonsocket, R. I., until 7:30 o'clock p.m., Thursday, July 9, 1925, for Furnishing all materials for building and raising of said Dam at Reservoir No. 3, and raising of the Highway near the Stephen Wright Place, (so-called). The Commissioners will be in session at 7:30 p.m. on said date for the purpose of receiving said proposals, or they may be left at the office previous to that time, and at 7:45 o'clock p.m. said proposals will be publicly opened and read.

Each proposal must be accompanied by a certified check, drawn and made payable to the order of the Treasurer of the City of Woonsocket, for the amount of One Thousand ($1,000) Dollars, as security for the execution of the contract, and a bond in form approved by the Board of Water Commissioners of the City of Woonsocket.

The amount of the bond for the fulfillment of the contract shall be the full amount of the contract.

Plans and specifications may be seen and form of proposal obtained at the office of the City Engineer. Proposals must be on forms provided. Prospective bidders may obtain copies of plans by making a deposit of Five ($5.00) Dollars. Said deposit will be returned when plans are returned in good condition.

The right to reject any or all bids is expressly reserved, as the interest of the City may appear.

City of Woonsocket by its Board of Water Commissioners.

JOSEPH O. LEFRANCOIS,
Chairman.
JAMES LONG.
GEORGE E. BOUVIER.

FRANK H. MILLS,
City Engineer.

OFFICIAL PROPOSALS

Bids: July 9 (extended date).

Water Works Improvements

Ronceverte, W. Va.

Sealed proposals will be received by the City of Ronceverte, W. Va., at the office of the City Clerk up to 4 p.m., July 9, and then publicly opened and read, for the following water works improvements:

Filter plant having a capacity of 500,000 gallons per 24 hours and consisting of concrete intake, 4-hour settling basin, two filter units, piping, and electric pump room, 36,000 gal. filtered water well, and brick superstructure.

Furnishing and installing filter piping, and equipment; changing present high pressure electric centrifugal pumps to new plant; piping pumps and intake, and electric wiring.

Furnishing two raw water centrifugal pumps, 350 g.p.m. each against a total head of 25 ft. direct connected to 5 hp. electric motors, 220 volts a.c. with starters.

Relining and enlarging with concrete the old concrete reservoir to give a capacity of 250,000 gallons.

All bids must be accompanied by a certified check for not less than five per cent of the amount of bid drawn to the order of City of Ronceverte, W. Va. Checks of unsuccessful bidders will be returned within two weeks after bids have been opened and read.

An approved contract bond in a sum equal to one-half the amount of the contract will be required of each contractor, except in the case of contract to furnish the raw water pumps by manufacturer.

The right is reserved to reject any or all bids or to award contracts separately for each of the four above named items or all to one contractor.

All bids must be addressed to the City Clerk, Ronceverte, W. Va., and sealed and marked plainly on outside of envelope "Bids on Water Works Improvements."

Specifications and plans may be seen at the office of the City Clerk on and after June 15 or may be obtained after that date from the engineer upon the receipt of $5.00 which is the estimated cost of making up and mailing the extra copies. No charge will be made for specifications and bidding form for furnishing pumps.

A. S. WOODHOUSE, City Clerk,
Ronceverte, W. Va.

H. K. BELL, Engineer,
418 Hernando Building,
Lexington, Ky.

Bids: July 6.

Streets

Bicknell, Ind.

Bids will be received by the City of Bicknell, Indiana, until 7:30 P.M., on the 6th day of July, 1925, for a street improvement, including 14,500 sq.yds. brick, asphalt or concrete pavement; 3,000 sq.yds. of concrete sidewalks; 1,200 lin.-ft. combined curb and gutter and about 8,500 lin.-ft. of sewer, size 12 in. to 30 in., all as set out in the engineer's report now on file with the clerk of said city. For further information and forms write either Myrtle Hollingsworth, City Clerk, or Robt. E. Lind, City Engineer.

OFFICIAL PROPOSALS

Bids: July 27.

For Furnishing 48 and 36-inch Water Mains for the Metropolitan Utilities District.

Omaha, Neb.

Sealed proposals addressed to the Metropolitan Utilities District, Omaha, Nebraska, and indorsed "Proposals for Water Mains," will be received at the office of the General Manager, Room 206 City Hall, Omaha, Nebraska, until Twelve (12) o'clock noon of Monday, the 27th day of July, 1925, for furnishing, for furnishing and installing, or for installing only, the whole or such part as may be stipulated in the proposal of a 48 inch water main having a total length of approximately 21,970 feet and two 36 inch water mains having a total length of approximately 2,556 feet.

Each proposal must be accompanied by a certified check equal to five per cent (5%) of the amount of the bid made payable to the Metropolitan Utilities District as security for the acceptance of the contract.

The Board of Directors reserve the right to accept any bid, or to reject any or all bids.

Plans, profiles, specifications and forms of proposals and contracts may be obtained at the office of the General Manager, City Hall, Omaha, Nebraska, upon deposit of Five (5) dollars.

METROPOLTAN UTILITIES DISTRICT,
of the City of Omaha, Nebraska.
THEODORE A. LEISEN,
General Manager.

U. S. Government

TREASURY DEPARTMENT, Office of the Supervising Architect, Washington, D. C., June 10, 1925. Sealed proposals will be opened in this office at 3 p.m., July 13, 1925, for the construction of a one-story brick faced Post Office building, approximately 76 by 44½ feet in size at Walden, N. Y. Drawings and specifications may be obtained from the Custodian of the site at Walden, N. Y., or at this office in the discretion of the Supervising Architect. Jas. A. Wetmore, Acting Supervising Architect.

U. S. Government

UNITED STATES ENGINEER Office, Montgomery, Ala. Sealed proposals will be received here until 12 o'clock noon, July 25, 1925, and then opened, for removing wreck of barge Avio in St. Josephs Bay, Fla., and wreck of the schooner Alpena in St. Andrews Bay, Fla. Further information on applicatoin.

U. S. ENGINEER OFFICE, Florence, Ala. Sealed proposals will be received here until 11 a.m., July 21, 1925, and then opened, for furnishing and delivering structural steel lock gates, including fittings, castings, etc., for Dam No. 1, Tennessee River, and for the erection of the gates. Further information on application.

U. S. ENGINEER OFFICE, Florence, Ala. Sealed proposals will be received here until 11 a.m., July 7, 1925, and then opened, for furnishing and erecting a Strauss trunnion bascule bridge across the navigation lock of Wilson Dam. Further information on application.

PROPOSALS FOR LEVEE WORK—Office of Third Mississippi River District, P. O. Box 404, Vicksburg, Miss. Proposals for about 360,000 cubic yards of levee work will be received here until 10 a.m., June 29, 1925. Information on application.

U. S. ENGINEER OFFICE, Providence, R. I. Sealed proposals will be received here until 12 o'clock noon, Eastern Standard Time, July 3, 1925, and then opened, for dredging in Bridgeport Harbor, Conn. Further information on application.

U. S. ENGINEER OFFICE, Florence, Ala. Sealed proposals will be received here until 11 a.m., July 20, 1925, and then opened, for furnishing and erecting a Gantry Crane on Spillway section of Wilson Dam. Further information on application.

U. S. Government

SEALED PROPOSALS, indorsed "Proposals for Quarters, Brooklyn, N. Y., Specification No. 4937," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a.m., July 15, 1925, and then and there publicly opened, for a double quarters for officers at the Naval Hospital, New York (Brooklyn), N. Y. The work includes concrete foundations and basement walls, concrete walks, brick walls above basement, artificial stone, miscellaneous steel and iron work, slate and tin roofing, sheet metal work, lathing and plastering, tile and marble work; lumber and mill work, screens, hardware, painting and glazing, and plumbing, heating and electrical systems. Specification No. 4937 and accompanying drawings may be obtained on application to the Bureau or to the Commandant, Navy Yard, New York (Brooklyn), N. Y. Deposit of a check or postal money order for $10, payable to the Chief of the Bureau of Yards and Docks, is required as security for the safe return of the drawings and specification. L. E. Gregory, Chief of Bureau, May 26, 1925.

U. S. ENGINEER OFFICE, Florence, Ala. Sealed proposals will be received here until 11:00 a.m., July 8, 1925, and then opened, for swinging machinery for navigation lock gates, Wilson Dam, Tennessee River. Further information on application.

U. S. ENGINEER OFFICE, Galveston, Texas. Sealed proposals will be received here until 2:00 p.m., July 17, 1925, and then opened, for constructing and delivering five (5) 35-foot and three (3) 40-foot Motor Launches. Further information on application.

U. S. ENGINEER OFFICE, Florence, Ala. Sealed proposals will be received here until 11 a.m., July 7, 1925, and then opened, for furnishing and erecting a bascule bridge across the navigation lock of Wilson Dam. Further information on application.

Why?

WHY do Government regulations specify that contracts for construction, equipment and supplies over a certain minimum amount must be advertised?

WHY do the laws of most States and Municipalities specify the same thing?

WHY do so many private corporations advertise **their** big contracts?

WHY do Consulting Engineers, Architects, and others recommend and endorse the advertising of Contracts To Be Let?

And—

WHY are 90% of the advertisements on which **real national competition** is desired published in ENGINEERING NEWS-RECORD?

In the answers to the foregoing questions you will find unquestionable proof that

1—**Advertised Contracts** are the accepted form of public letting to insure the awarding of contracts free of prejudice.

2—**Advertised Contracts** guarantee the greatest possible saving through maximum competition and that—

3—ENGINEERING NEWS-RECORD is universally recognized as the one dominant medium of **national** circulation for advertising Contracts To Be Let.

Are your contracts advertised?
Are they advertised in ENGINEERING NEWS-RECORD?
If not—WHY?

E.N.R.

POSITIONS VACANT

AN engineer wanted thoroughly familiar with the design and operation of dipper and hydraulic dredges (a knowledge of placer dredges desirable but not essential) to investigate existing dredges of these types in this country and to make preliminary designs of a complete line of each type. Employment permanent. State technical training, practical experience and other qualifications, also salary expected. P-831, Engineering News-Record, 7 South Dearborn St., Chicago, Ill.

DESIGNER with considerable experience in reinforced concrete arch and caisson work. Apply by mail giving education, experience, references and salary desired in first letter. P-887, Engineering News-Record, Real Estate Trust Bldg., Philadelphia, Pa.

DETAILERS, designers, estimators, with reinforcing bar experience, wanted for Baltimore, Syracuse and New York. Give details as to age, experience, education and salary expected in first letter. P-891, Engineering News-Record, Tenth Ave. at 36th St., New York.

DRAFTSMEN—Experienced in shop drawings for structural steel. Apply by mail only, giving age, nationality, education, experience and salary expected. Post & McCord, 101 Park Avenue, New York.

DRAFTSMEN wanted, experienced in detailing and checking all classes of steel structures. Permanent position for right man. In replying state age, experience, nationality, salary desired and when available. P-885, Engineering News-Record, 7 So. Dearborn St., Chicago, Ill.

ENGINEERS with municipal experience on water, sewer or streets as combination instrument man and inspector on residences southeastern territory. Give full particulars as to age, experience, references and salary expected in first letter and date can report. Address Engineers, 1408 Citizens & Sou. Bank Building, Atlanta, Georgia.

ENGINEERING graduates. Several recent graduates on bridge and structural steel. Apply by letter, giving age, school, date of graduation, experience, etc. P-888, Engineering News-Record, Real Estate Trust Bldg., Philadelphia, Pa.

POSITIONS VACANT

ESTIMATOR and draftsman wanted for general contractor's office. Technical education preferred. State age, experience and salary in first letter. Address Box 501, Ashland, Ky.

EXPERIENCED checkers wanted on bridge and structural steel drawings. State age, education, references, details of experience, salary expected. Address Engineer, American Bridge Company, Ambridge, Pa.

EXPERIENCED detailers and checkers on bridge and structural steel. Apply by letter, giving age, education, experience, salary expected. Location Philadelphia. P-889, Engineering News-Record, Real Estate Trust Bldg., Philadelphia, Pa.

FIELD engineers, 27 to 35, in contract bond department. Prefer Asso. Mem. or Mem. Am. Soc. C.E., with at least five years' active construction experience, good personality and ability to talk convincingly. Single men as much traveling is involved. Salary $2,000 to $3,000 a year and expenses as start, depending on previous experience and qualifications; opportunity for advancement to desirable permanent connection. Reply by letter stating age, education, married or single, complete experience, actual duties performed each job or organization and salary received, also references. Interview can be arranged in any large eastern city. E. W. Bush, Engineer, Aetna Casualty & Surety Company, Hartford, Conn.

LEVELMAN, must be a neat draftsman and able to make topographical surveys. Salary $140, with expenses away from headquarters. Apply by letter, giving age, nationality, education, experience, and submit sample of drafting. Erie Railroad Company, Susquehanna, Pa.

POSITIONS VACANT

OFFICE engineer wanted, location Southeastern states, with experience in designing of water purification plants from one to five million gallons capacity and general municipal work. Must be a good draftsman. State age, education, experience and salary expected in first letter. Also how soon you could report. P-900, Engineering News-Record, Tenth Ave. at 36th St., New York.

RESIDENT engineer wanted with municipal engineering experience. Location in the Southeast. State age, education, experience, salary expected and date you could report in letter of application. P-899, Engineering News-Record, Tenth Ave. at 36th St., New York.

RODMAN wanted; state experience and salary expected. Address 530, Guarantee Trust Bldg., Atlantic City, N. J.

SALES manager for Rocky Mountain region, direct force and sell, best lines construction machinery, must have thorough knowledge technical and practical, steam and gas shovels, cranes, draglines, large mixers, pavers, conveyors, road machinery; must be able handle men; good personality; high class man only; give references, experience, age, salary expected. P-857, Eng. News-Record, 7 So. Dearborn St., Chicago, Ill.

STRUCTURAL draftsman for laying out and detailing structural steel for buildings. State in application, age, nationality, education, experience, salary expected and date available. References will be required. The James H. Tower Iron Works, Providence, R. I.

TWO structural designers wanted, familiar with reinforced concrete factory work. Salary $200 to $300 per month. Also one reinforced concrete detailer. Elwyn E. Seelye, 101 Park Avenue, New York.

Prepare for a Bigger Job

Foremen, Timekeepers, Clerks, become Estimators and Construction Managers by spare time study. Full particulars sent upon request.

TYREAN INSTITUTE
15 E. Grove St., Palmer, Mass.

DRAFTSMAN

First class Draftsman who is technical graduate with general experience in design of locomotive cranes, excavating machinery or machinery of similar character.

Good opportunity for advancement with well-established concern.

P.-880, Engineering News-Record
Leader-News Bldg., Cleveland, O.

For the Draftsman with an Eye to the Future

OTHER WILSON COURSES:
Reinforced Concrete Engineering
Bridge Engineering
Structural Steel Designing
Structural Engineering
Preparatory Course
Concrete Drafting and Estimating

The most plentiful commodity in our industrial life is the average man. Ordinary draftsmen are included. They are just draftsmen. However, the men who specialize in particular branches of work, are those sought after and well paid these days. Specialize! Structural is one branch of drafting with a promising future.

Structural Drafting

NOT A SET OF BOOKS—PRACTICAL WORK

(By Mail)

This course recognizes the special needs of draftsmen who are now employed at or who contemplate doing structural work. In addition to being a course affording extensive practical experience in drafting, it includes training in structural steel designing which is necessary for a wider knowledge of the student's special field and to enable him to do his work intelligently.

With 22 years of technical and practical experience on high type construction work. Open for engagement on or before July 15th.

Two Connections in Fifteen Years

PW-895, Engineering News-Record
Tenth Ave. at 36th St., New York City

We Will Feed Your Men—

We operate boarding camps anywhere.

Laborers furnished free where we conduct commissaries.

We have been boarding men on large out-of-the-way construction jobs for 20 years in all parts of the United States and Canada—and under all conditions. We know the needs and all the little details in connection with such camps that keep labor contented and on the job. It will pay you to turn your labor problem over to us.

IT IS OUR SOLE BUSINESS

Consider this when you are ready to recruit a gang for an out-of-the-way job. We can give you the same thorough satisfaction that we have such people as the Frisco Lines, U. S. Army, Atlas Powder Co., Standard Oil Co., I-GN Railroad, etc.

Central Boarding & Supply Company

Coca Cola Building, Kansas City, Mo.

Ingersoll-Rand 1300-ft., steam-driven, straight-line, self-contained, two-stage Air Compressor, ideal for Contractors. Overhauled, guaranteed condition. Immediate delivery.

Wickes Machinery Co.
Jersey City, N. J.
Established 1900

Former Plant of **GROTON IRON WORKS** Groton, Conn. (New London)

The above plant has been purchased by us and is offered for sale, including all real estate, buildings, equipment and material. This plant, modern in every respect, was formerly operated by the U. S. Shipping Board Emergency Fleet Corporation. It occupies 34 acres of land with over 1800 ft. frontage on New London Harbor.

Extensive wharves and switch tracks on the N. Y., N. H. & H. R. R. provide unusual shipping facilities. 15 buildings provide in excess of 200,000 sq. ft. of manufacturing space. Equipment is all in surprisingly good condition, owing to the fact that it has had very little use, and an almost endless variety of machinery is available.

Among the principal items are: cranes, overhead gantry; fabricating shop equipment; machine shop equipment; pipe shop equipment; joiner shop equipment; Shepard hoists; transformers, 15 to 667 kva.; motors, 1 to 75 hp.; pneumatic tools; switchboard equipment; rotary converters.

Locomotive Cranes—McMyler Locomotive Cranes, 8 wheel, 15 ton, 45 ft. boom, standard gauge, fully equipped.

GROTON IRON LIQUIDATING CO., Groton (New London), Conn.

8—Marion R.R. Trucks, Caterpillar and Traction Wheels, from ¾ to 4-yd. cap.
1—Type "B" Erie, High Lift Boom.
1—Model 4 Keystone Excavator.
2—Type "O" Thew, Horizontal Crowding booms on trac. wheels. No reasonable offer refused.

BUCKETS

1—1-yd. Hayward Clam Shell.
1—½-yd. Owen with teeth.
20—Controllable Bottom Dump.

PAVERS AND MIXERS

1—Foote Paver 16-E Steam Power.
3—Koehring Bldg. Mixers, 21-S Steam Power.
1—Rex 21-S Steam Power, Bldg. type.

PUMPS

1—Dean Hor. Duplex, size 10x7x12.
1—Morris Cent. Sand, 12x12, Belt Drive.
1—Morris 4 in. Cent. Water Pump, Steam Eng.
1—Morris 6 in. Cent. Sand Pump, Steam Eng.
1—No. 7 Pulsometer Pump.
4—Brand new Aldrich, Triplex, 3½x4, equipped with 15 hp. 4-cylinder LeRoi Motors.

PILING HAMMERS

1—No. 5 Vulcan Sheeting, rebuilt.
2—No. 9 McKiernan-Terry Steam.
3—Drop Hammers.
1—No. 7 McKiernan Terry.

CRUSHER

1—Gates No. 5.

BOILER

1—80-hp. Loco. Type, Butt Strapped Joint.

AIR COMPRESSORS

1—Fairbanks-Morse 8x8 belt drive with 20 hp. A.C. Motor.
1—Gardner 6x6 Duplex on trucks, with tank and A.C. Motor.
2—Chicago Oil Driven on Trucks, cap., 212-ft.

HOISTING ENGINES

4—8¼x10 D/C D/D's with and without Boilers.
1—Mundy 8x12 3-Drum with Boiler.
9—7x10 D/D's Am. Le. Lidg. Mundy
1—8¼x10 3/D Stroudsburg.
1—7x10 3/D Stroudsburg.

CARS

20—Std. Ga. Western 12-yd. Air Dump.
10—24 Ga. Western Steel Flat.

LOCOMOTIVES

2—24 Ga. Plymouth Gas Power
1—21-ton Davenport Saddle Tank, Std. Ga.
1—42-ton Shay Geared.
4—6-ton 24-in. Ga. Whitcomb Gas.
Also 4 Std. Ga. ranging from 20 to 50 tons.

DRAG LINES

5—Monighan Models 1-T, 2½ and 3-S.
2—Bucyrus Class 14 and 24.

ROAD AND PAVING EQUIPMENT

1—Dunn 18 ft. Finishing Machine.
2—Holt caterpillar tractors, 5 ton.
3—Miles of 24 Ga. Portable Track.
4—Rollers 3 to 10 ton.
16000 lin. ft. of 2-in. Pipe.
1—Adams Leaning Wheel 10 ft. Blade Grader.
1—Austin 7 ft. Blade Grader.
8—2½ Western 2 Wheel Scrapers.
4—Baker 4-wheel Maney Scrapers.
1—18-ft. Lakewood Finishing Machine.
1—100-ton Johnson All Steel Hopper.
2000 Lin. ft. Blaw Knox 9-in. Road Forms.

DERRICKS

1—Wood Stiff Leg, 60-ft. boom.
2—Wood Stiff Legs, 60-ft. booms, bucket handling.
4—Steel Guy, 115-ft. masts, 100-ft. booms, cap., 15 tons.
1—Insley Steel, 10-ft. Guy.
1—Steel Stiff Leg, 100-ft. boom, cap., 7 tons.
20—Others ranging from 3 to 20 tons.

TRENCHING MACHINES

1—Parsons Cat. will dig 16-ft. deep.
1—Buckeye Ditcher Wheel Type, cap., 6-ft.
1—"00" Austin Cat., cap., 15-ft.

Eagle Universal Steel Dump Model 80 for Fords

The Best Automatic Dump they have ever seen

is the comment of practically all the contractors, users and Ford Dealers who have seen our new all steel dump for Ford Ton Trucks.

The points that appeal to them are:

1. The absolute automatic dump and return by use of one foot pedal in cab.

2. The stiff arm construction under front end of body, permitting spreading and batch work.

3. General construction and operation.

THE EAGLE WAGON WORKS
Auburn, New York

Pick Them from Stock for Prompt Shipment

THERE is no reason why any contractor, any manufacturer, any user of industrial locomotives should have to wait for deliveries of locomotive equipment. The probability is that you can select the model you want from the Porter stock and have it delivered and on the job in a few hours or a few days. And you can be certain that 60 years of Porter experience guarantees the *service* of the Porter Locomotive you select. All sizes up to 100 tons.

"A.W." Diamond Pattern Rolled Steel Traffic Treads

These Treads are highly successful on old and new wooden floor bridges. They eliminate vibration—prolong the life of the bridge—furnish a surface suitable for any traffic—last for years under heavy use—are economical to install—and have practically no maintenance cost.

"A.W." Rolled Steel Floor Plates are widely used in public buildings, power plants, platforms, etc. May we send you an illustrated folder?

Cut Down Road Maintenance Costs
with the

H. P. One Man Grader

Rubber tired wheels for general road maintenance. Rigid Rail Tracks for rough going. That's what the h.p. One Man Grader offers. It is economical. Upkeep is practically nothing. Speed one to ten miles per hour.

Controlled by ONE MAN from platform. Impossible to slide rear sideways. For cutting hard spots, blade will take a ton weight without taking weight from traction wheels.

Scrapes, scarifies, roots, ditches, rolls and removes snow

Write for Full Description or See It At the Road Show, Space N. C. 29, Coliseum, Chicago, Jan. 5-9.

Adams 10 ft. Grader finishing a ditch bank by making a cut with the Back-Sloper. Rear wheels are leaned to hold machine against the heavy cut.

Why YOUR Grader should be an ADAMS

First—Your grader should be a "Leaning Wheel" grader because—this is the only type of grader that is designed correctly to move earth side-wise. A "Leaning Wheel" grader pulls easier, does not skid or drag, is easier to control, does better work and much more of it per dollar than any straight-axle grader.

Second—Your "Leaning Wheel" grader should be an ADAMS because only in an ADAMS do you get the proved performance and absolute satisfaction, which are the results of ADAMS 40 years of specializing on "Leaning Wheel" graders.

During these 40 years, Adams Graders have been perfected to a degree of simplicity, strength, ease of operation and freedom from trouble not approached by recent imitations. For example, compare the simple patented "one-piece" rear axle and simple controls of Adams Graders with the "two-piece" axles and complicated controls used on other "Leaning Wheel" graders.

Any way you figure it—on design, construction, performance or satisfaction—your best buy in a road grader is an ADAMS. Ask any user—and send for our 60-page catalog.

A Unique Crushing Action

The mechanical efficiency of the UNITED Crusher is exemplified in the unique crushing action by which the largest pieces of rock are crushed at the upper part of the jaws where the leverage is greatest. This means more crushing with less power consumption.

The UNITED Crusher is efficiently designed throughout. It is strongly, heavily built. Breakdowns are rare with the "UNITED". It is built to eliminate these troubles and delays.

The capacity of these crushers is large. It is only by concentrating in the building of one type of crusher that the UNITED low price is made possible.

This crusher can be had unmounted or mounted on a truck with elevator. Built in 8 sizes.

REINFORCEMENT

Is the Deciding Factor In the Concrete Road

WICKWIRE SPENCER STEEL

CLINTON ELECTRICALLY WELDED FABRIC has been used successfully twenty years in roads, sewers, dams, etc., and in fireproof construction.

Wherever dependable mesh reinforcement can be used Clinton has stood the test of time.

Clinton fabric can be furnished in flat sheets and laid by unskilled laborers as fast as the mixer can cover the ground.

The most sewer for the money

SEWERS should last and give service for all time once they are laid. Clay pipe does that. Clay pipe is made of the ground itself—ground chemicals and acids cannot harm it. Nor can electrolysis disintegrate clay pipe, because it is made practically the same as a high-tension insulator with its outer coating of glass (the glaze).

For real permanence, lay Vitrified Salt-Glazed Clay Sewer Pipe.

TRUSCON
STEEL FOR
CONCRETE REINFORCING

For manhole forms

Manhole forms, too, can be quickly and economically built with standard and special METAFORMS. On special jobs of this nature, when the form building space is limited, the simple, easy-to-handle Metaforms offer the only practical method. Metaforms speed the job and cut costs.

Metaforms are produced for both circular and straight wall work. They are uniform, reinforced steel plate units.

New Way to Join Pipe
PRESSTITE
PATENTS PENDING

An asphalt joint in a new, convenient form. A preformed, pliable, asphaltic gasket inserted with pipe on top of trench. Joint is pressed "home" gradually with lever, as pictured, (2000 to 2500 lbs. horizontal pressure). A joint that won't leak, crack or freeze. Root-proof. Acid-proof. Saves sewer cleaning expense. Saves in trench width. Can be used in wet trench.

SELF-CENTERING

Gasket tapers to outer edge of bell. Automatically centers spigot into bell of pipe. Allows pipe to conform to final grade of trench. Big saving in labor. Write for details. Let Presstite Service help solve your pipe line problems.

Two grains of Strychnine

Two grains of strychnine will kill a 180 pound man.

The percentage of strychnine compared with the man's weight is less than 1/5000 of 1 per cent.

It is easily understandable, then, why an increase in impurities of several hundredths of one per cent makes such a vital difference in the durability of culvert material.

ARMCO Ingot Iron is purer than any other iron made. The microphotograph shows nothing but pure ferrite grains. That's why no other iron compares with it in durability under culvert conditions, as proved by actual investigation of thousands of installations.

There is a manufacturer in almost every state and in Canada, making Culverts, Flumes, Siphons, Tanks, Roofing, etc., of genuine, rust-resisting ARMCO Ingot Iron. Write for full information and nearest shipping point on products in which you are interested.

THE TRUSCON LABORATORIES ~ DETROIT

This is the second of a series of advertisements being published in a genuine desire to see lumber users get what they pay for. The material that is commonly shaved off at the mill can just as well be used to increase the dimensions of the lumber, increasing the strength 8%, stiffness 12%, and warping resistance 8%.

2 9.5% More Lumber in Super-Standard

Here are the figures to prove it

The volume of one inch of 1x3 lumber
= the surface of the end x 1-in.
= the surface of the end expressed in square inches

End surface of standard = 25/32x2⅞-in.
= 25/32x76/32 = 1900/1024 = 1-219/256
= 1.855 sq. in.

End surface of *super* standard = 13/16x2½-in.
= 13/16x40/16 = 520/256 = 2-1/32-in.
= 2.031 sq. in.

Difference in Area = 2.031—1.855 = .176 sq. in.

% increase of *super* standard over standard
= .176 / 1.855 = 9.48%

The difference between "rough green dressed" and "rough dry dressed" is ⅛ inch in one dimension and 1/16 inch in the other.

The difference in volume of lumber is 9.5%.

The difference in strength is 8%.

The difference in stiffness is 12%.

The difference in resistance to warping is 8%.

The difference in your pocketbook is *at least* 9%.

Do you want to reduce your labor bills 9%?

Then specify *Super-Standard*—there is no further argument.

Commercial Cable Company Building at Far Rockaway, Long Island, N. Y. William Crawford, Builder.

How the Commercial Cable Company keeps its walls damp-proof

IF it should rain for seven days and seven nights, no dampness can penetrate the walls of the Commercial Cable Company's building at Far Rockaway, Long Island.

The entire exterior wall surface of this building has been made absolutely waterproof and damp-proof by an application of Hydrocide Colorless. In addition to keeping the interior of the building warm and dry, this material preserves the natural beauty of the brickwork. Its presence on the exterior surface of a wall can not be noted.

Hydrocide Colorless is a perfect waterproofing for brick walls. It can be applied in cold weather. It does not run in hot weather for it contains no paraffine. It collects no dust; it penetrates the brick; it can be painted; it is invisible.

Use this material on all your waterproofing jobs and you will have walls of which you can be permanently proud. Send for literature giving further details on Hydrocide Colorless.

Hydrocide Colorless

Waterproofing

Other Sonneborn products

Lapidolith—The original concrete floor hardener. A liquid chemical that changes the floor surface to a fine dense crystalline structure of flint-like hardness. Hundreds of millions of feet of concrete floor have been Lapidolized in the leading industrial plants of the country.

Cemcoat—A paint that stays white longer than any similar paint; can be washed again and again; sticks to brick or concrete as easily as to wood; and usually requires one less coat. Made for both interiors and exteriors, in white and colors, and in gloss, eggshell, or flat enamel finish. Send for a free sample.

Lignophol—A preservative dressing for wood floors that penetrates and restores the natural oil and gum of the wood. Lignophol prevents rotting, splintering and drying out; it is not sticky; it can easily be washed; and does away with ordinary floor oils.

Stormtight—The famous semi-liquid compound for mending and preserving roofs. The thick, adhesive rubber-like material can be applied by anyone, over any kind of roof, and gives a tight new surface that lasts for years. Made in four beautiful colors. Mends a single leak or makes an entire roof watertight.

L. Sonneborn Sons, Inc., 114 Fifth Avenue, New York City

You never saw a book on detailing and fabricating structural steel as fact-packed as this one. Examine a copy for 10 days free.

This book describes in detail the handling of structural contracts from the time proposals are made until the fabricated steel is shipped. The book presents a discussion of engineering and shop organizations, a study of structural designs and specifications, and descriptions of the best modern methods of handling contracts, ordering material, making shop drawings, fabricating, inspecting and shipping steel.

Detailing and Fabricating Structural Steel

By F. W. Dencer

Engineer, Gary Plant, American Bridge Company

511 pages, 6x9, 328 illustrations, $5.00 net postpaid.

The organizations of the various departments in a structural shop are outlined fully. Then the book takes up, step by step, all the phases of detailing and fabricating structural steel, namely:

—handling contracts;
—laying out connections;
—ordering material;
—detailing;
—checking;
—field checking;
—writing shop and shipping bills;
—receiving material and shipping;
—making templets;
—punching;
—drilling;
—fitting;
—reaming;
—finishing;
—riveting;
—inspecting;
—painting.

Forging, heat treatment, machinery, tool and die making applicable to structural fabrication are also discussed. Special attention is given to economies in engineering and fabrication, with specific examples of simplified fabrication.

Mr. Dencer has put into this book the results of twenty-six years' engineering experience. During that time he has had ample opportunity to gather together the most practical and successful methods of doing things in the detailing and fabricating of structural steel. These methods—the accepted methods of modern practice—are all contained in this new book.

The book has been splendidly received. It is thorough and practical—just packed with the kind of information you want.

Send for a copy to examine for ten days free. No obligation to purchase—no agents—no red tape. You simply agree to return the book postpaid in ten days or to remit for it then. Send just this coupon.

Pond Roof Design and Pond Continuous Sash give ample daylight and fresh air to the Riding Club of Chicago; Rebori, Wentworth and Dewey, Inc., Architects

Pond roof design brings natural light and ventilation to this great arena

THE solution of the problem of providing the necessary natural light and fresh air in this great arena building was found in the use of Pond Roof Design and Pond Continuous Sash, both originated by Lupton.

The results obtained by adapting this industrial roof design to a recreational building are highly gratifying. Pond Roof Design and Pond Continuous Sash give even daylighting and natural ventilation in the Chicago Riding Club as effectively as in great industrial plants.

The Riding Club of Chicago

THE Riding Club of Chicago, which has made Chicago a notable center of equestrian sports, is housed in a gigantic building in the Gold Coast section. It boasts the largest indoor riding arena in the world, as well as seats for 5000 spectators, luxurious lounges, dressing rooms, and a fine library.

Of steel and concrete construction with a Pond Truss roof, the immense building is 305 feet long, and 208 feet wide. Elaborately equipped stables accommodate some 400 horses, many of them famous blooded stock.

Fashionable society frequents the club to witness indoor polo tourneys and attend brilliant receptions. Skilled instructors are retained for beginning equestrians under the supervision of Capt. Ivanenko, ex-officer of Russian cavalry.

To Architects and Engineers

Let Lupton help you on your industrial plans. Their extensive facilities and many years of practical knowledge of daylighting problems may prove of great assistance to you. Feel free, at any time, to call for their services without obligation. Address nearest branch office. Competent men in every one.

SYMONS ADJUSTABLE SHORES

Chimney Tops and Pots

Distinctive Stock Patterns—Proper Dimensions

DISTINCTIVENESS is commendable, particularly when attained economically. Chimney tops or Pots are indispensable to English, Spanish or Italian types of architecture. A variety of patterns must be available to meet requirements of harmony and atmosphere.

Chimney Tops, to be practical, must be accurately adapted in size to the area of the chimney flue.

Variety both in designs and sizes is now obtainable at economical cost. Dickey Clay Chimney Tops are made in several standard and authentic patterns. Each pattern is made in several dimensions to insure good draft in chimneys.

Dickey Clay Chimney Tops are carried in stock. The material is hard burned fire clay; substantial and permanent, not affected by heat, cold, gases or weather. Cost much less than made-to-order specials. Prompt delivery is assured.

Sauerman Slackline Cableways

Most excavating work involves also the conveying of the material over several hundred feet and frequently the elevation to a hopper or high pile. On such work the Sauerman Slackline Cableway Excavator is unexcelled; in one simple forward motion it digs, conveys, elevates and dumps automatically. Material is thus handled at a minimum cost per yard.

Digging Gravel from Wet Pit.

Write us of your own excavating and material-handing work. Or, for general information, ask for Pamphlet No. 22.

Calculus made plain for you

Here is a plain, clear and thorough book that will give the practical man the ability to make use of the calculus as he needs it in his work. The author says in his introduction: "The subject of calculus cannot be made *easy*, but it can be made *plain*." To this end he has written this book.

Palmer's

PRACTICAL CALCULUS for Home Study

By C. I. Palmer

Armour Institute of Technology

443 pages, pocket size, flexible, 186 illustrations, $3.00 net, postpaid

This book is for the man with limited mathematical training who has need for a working knowledge of calculus and its practical applications. It shows just what kind of problems can be solved with the aid of calculus and explains thoroughly and clearly how.

You have been waiting for this book

A working knowledge of calculus is of such advantage that hundreds of men have been asking for just such a simple and understandable book as this one. The book avoids involved mathematical terms and phrases. It covers every point plainly. It tells you the many practical uses to which calculus can be put—how you can use it daily—how it can help in your work.

LIDGERWOOD HOISTS

Electric—Steam—Gasoline

In types and sizes to meet all requirements of contractors' hoisting and haulage work.

Illustration shows three of the six Lidgerwood Hoists used on the construction of the L. S. Plaut & Co. Bldg., Newark, N. J., by Spencer White & Prentice Co., General Contractors.

The First Step in the Design and Construction of the Lidgerwood Hoists is a thorough study, in the field, of the work the Hoist has to do.

The Hoist is then properly designed and built to do that work.

Hayward Buckets

Note how this Hayward Clam Shell Bucket cleans up the deck of the barge—one of the reasons for the quick unloading ability of Haywards.

This Hayward digs a big load and then dumps it freely and quickly.

Why Haywards predominate

Groups of Hayward Buckets, like that shown above, are commonly found where large quantities of bulk materials must be handled speedily. In addition to speed Haywards possess qualities which are the result of more than 40 years of experience in building all types of buckets.

Overload capacity—
Because the rating of all Hayward Buckets is based on level measurement, all crowned load is overload.

Strength—
that gives long life and the ability to resist the shocks and strains of gruelling service. This is a quality common to all Hayward equipment.

Clean, Free Dumping—
contributing to the speedy work of Hayward Buckets. Note in the view at the left how most of the load has left the bucket—and the bucket only partly opened.

Send for Catalogs and Bulletins describing these features of Haywards in greater detail.

Handling a 16-ton rock from the bottom of a river.

Showing an overload bite in hard packed soil.

A Bucketful

Get the bucket that gives you a bucketful at every "bite"—often heaped up and running over: The O-S Type "V" Clam Shell Bucket. Why?

1. Weight enough to bury itself in the material.
2. Speed enough to insure 3 trips a minute.
3. Spread enough to collect a bucket load every time.

Conservation

WAYS and means of increasing its water supply is a problem being given serious consideration by municipalities throughout the country. However, investigations frequently prove that many of the present water supplies are adequate if properly handled to eliminate consumer waste. Metering is the only method that does prevent waste.

In many cities where Neptune Trident Meters are in use, water is being conserved, controlled and delivered to consumers at much lower cost, and with a decrease in operating cost, than would be otherwise possible.

In material, workmanship and design, Trident Meters are built to render the unity of function which is necessary to guarantee the accurate supplying of a city's water needs.

Send for a copy of the 86-page book describing all types and sizes of Neptune Meters.

A Venturi Battery in the South

Charlotte, N. C. can well be proud of its new filtration plant. Designed by William M. Piatt, Consulting Engineer, and under the superintendence of Mr. W. E. Vest, it is capable of furnishing daily to the city 8,000,000 gallons of pure water.

Not the least item of pride is the battery of four VENTURI METERS which account daily for the total water entering and leaving the plant and for every variation in rate of supply or output. Furthermore they form a continuous check upon the efficiency of pumps and operators.

No up-to-date waterworks plant is now considered complete unless Venturi-equipped

Extra Heavy Valves for high pressures

Fig. 162, flanged, Jenkins Iron Body Globe Valve, Extra Heavy pattern.

Jenkins Extra Heavy Valves can be used with entire safety on working steam pressures up to 250 lbs. and working water pressures up to 400 lbs. Their design and construction are typically Jenkins and give great strength and rigidity — sufficient to easily withstand strains and stresses due to expansion and contraction of piping, and other causes.

The Jenkins Extra Heavy Valves are furnished in the following types: Globe, Angle, Gate, Blow-Off, Check, Automatic Equalizing Stop and Check. Obtainable through supply houses everywhere.

LOCK-BAR STEEL PIPE

is generally given a preference of 3 in. less diameter than riveted steel pipe for a given capacity—and will carry approximately 30% greater working pressure than riveted steel pipe of similar plate thickness. Its coefficient of friction is the same as new cast iron pipe *and never grows less.*

Altogether, a fine investment. See our full page ads. every other issue for detailed discussions. Send business card for 200-page "Handbook of Pipe."

1,430,000 gallons, 90 ft. to top.

Elevated Tanks, Standpipes and Steel Reservoirs

Wherever water is needed, Pittsburgh-Des Moines steel tanks provide the necessary storage. These tanks are permanent worthwhile investments, because they will not rot, leak, burn or burst. They require no upkeep except occasional coats of paint, and with proper care will last indefinitely; the first tanks which we built thirty years ago are still in use today. Pittsburgh-Des Moines steel tanks are designed, fabricated and erected by men experienced in this line of work, and insure efficient and economical water storage for towns, districts and industrial plants.

We build tanks of any height or capacity according to your special requirements. We have standardized our elevated tanks and towers and carry these designs in stock, completely fabricated and ready for immediate shipment. A wide range of sizes and heights is available; write for further information.

We also plan and construct complete municipal waterworks systems, including pumping stations, filter plants and pipe lines. Consult our nearest office on any project involving water storage or supply.

Send for our Municipal Waterworks Catalog No. 70.

For trouble proof Lubrication

Where there is Danger of Rust and Corrosion

Such as on

Elevator Plungers
Elevator Guides
Pump Plungers
Exposed Gears
Cranes
Derricks
Hoists
Wire Rope
Chains
Fire Hydrants
Winches

All other machinery exposed to weather or in contact with fresh salt, acid or alkaline water.

Use

DIXON'S

WATERPROOF GRAPHITE GREASE

A heavy body grease that combines the highest lubricating value with unsurpassed adhesiveness to the surfaces on which it is applied. Insoluble and cannot be washed off by fresh, salt, acid or alkaline water.

Acts as a protective coating that prevents rust or corrosion and is therefore especially valuable for pump plungers operating in dirty acidulous water.

Extends the life of machinery, reduces repair and replacement costs and minimizes friction.

Keeps in any climate. Can be carried in stock without deterioration. Your dealer has it.

BRIDGES AND BUILDINGS

"A structure is as strong as its details"

The New Palmer House in Chicago at one stage of its construction. Twenty-three stories high with 2268 rooms, each with bath, it will be the largest hotel in the world. Holabird and Roche are the architects and engineers; Thompson-Starrett Company the general contractors. The American Bridge Company fabricated the steel. All the steel received the thorough protection of Dutch Boy red-lead, special care being taken in painting the details such as the one shown in the circle.

What the public overlooked was the engineers' biggest job

All the public saw was a network of metal. They missed the countless details whose strength will keep this structure safe

RIGHT in the heart of Chicago's loop, the New Palmer House will open its doors. Its twenty-three stories will be divided into 2268 rooms, making it the largest hotel in the world.

A curious public watched in wonder as the network of steel was erected. But all they saw was a complicated mass of metal. They overlooked the innumerable details, the designing of which was the engineers' biggest job. For upon the strength of these details depends the safety of the whole structure.

Care in design and close figuring are of vital importance in making sure that the details are sound. But there is something more. All of the steel should be thoroughly protected against corrosion, and special care should be exercised in painting the details. In the recesses of details, where there are overlapping joints, at bolt heads, the edges of plates and girders, etc., rusting usually starts. Once steel is surrounded by masonry it becomes inaccessible for repainting. The one painting it receives, therefore, should be with the best paint it is possible to buy. That is why pure red-lead is the standard for protecting the steel framework of buildings. It is why in the New Palmer House every bit of steel, from the heavy girders and trusses to the gusset plates and bolt heads, received a thorough painting with Dutch Boy red-lead.

Dutch Boy red-lead will keep the inaccessible steel in good condition indefinitely. Being pure red-lead, it gives the best known protection to iron and steel surfaces—those that are exposed as well as those that are inaccessible after erection. It spreads evenly under the brush, insuring uniform protection. It dries with a tough, moisture-proof film that does not crack and scale.

Dutch Boy red-lead comes in both paste and liquid form. The paste is obtainable in the natural orange-red color and can be shaded to browns, greens, and black. The liquid comes in the natural orange-red color and also comes shaded to light and dark brown, light and dark green, and black for finishing coats.

Write our nearest branch if you are interested in protective paint coatings.

* Clipping from Engineering News-Record, March 5, 1925.

Maps can be completed in progressive sections, as desired, and are in the hands of the engineers for study in a fraction of the time required for ground surveys.

Happily, the writer can contribute first-hand testimony, that the results compare favorably in time, cost, and accuracy with old-fashioned preliminary surveys, through having recently completed the laying-out of a series of hydro-electric developments based on an aerial topographic map of some forty-odd miles of river valley, made by the Brock process.

Accurate Maps Quickly by Brock Process

One power company by use of the Brock process instead of the ordinary tedious land survey was supplied in a few months with an accurate contour map of large area, mountainous and wooded.

For study of different schemes of development, for preliminary location and for other purposes topographic maps produced by the Brock process excel. They are more accurate than those from comparable ground surveys for large areas.

Full equipment, personnel and resources available for quick results.

Full information on request without expense or obligation.

Schools & Colleges

Clarkson College of Technology

Courses leading to the degrees of Bachelor of Science in Chemical, Civil, Electrical and Mechanical Engineering.

Catalog upon application.

Potsdam, N. Y.

College of Engineering

Northwestern University

Five years of broad, thorough training; small classes, in which each student receives individual attention from head professors. Unsurpassed opportunities to see great engineering projects and meet engineers.
A young thriving College in an old University.
Write for "Best Preparation for Engineering" and "Booklet of Views."
John F. Hayford, Director.
Evanston, Ill., Swift Hall.

George Washington University

College of Engineering
Washington, D. C.

Chemical, Civil, Electrical and Mechanical Engineering and Architecture. Full day and late afternoon courses.

For information, address:
Dean, College of Engineering,
George Washington University,
Washington, D. C.

New York University College of Engineering

Civil, Mechanical, Chemical, Industrial and Electrical Engineering.
For information address Chas. Henry Snow, Dean.
University Heights, New York.

College of Engineering

Courses in Civil, Mechanical Electrical, Sanitary, Municipal, Chemical Engineering. Short course in Structural Drafting.

Enter any time. No matriculation or registration fees. Expenses ½ to ⅓ less than at other first-class schools. School year—Four quarters of 12 weeks each.

Length of Courses 120 Weeks. Save one year and $1000.

Experienced Instructors. Splendid Laboratories.

For catalog, bulletins or information address: Albert Edwin Smith, President, Ohio Northern University, Ada, Ohio.

Norwich University

(Founded 1819)

The Military College of Vermont. Academic Courses in Civil and Electrical Engineering. Address Prof. H. R. Roberts.

Northfield, Vermont.

Other Engineering Colleges

find this advertising desirable publicity. Why can it not serve you too?

Professional Cards

In this paper offer highly appropriate type of publicity for the services of professional men in the Engineering and Construction field.

Your Card

Can be inserted at very small cost.

ENGINEERS' MAPS

Section of Aerial Map used for Reservoir Location. Reduced half size from Scale 1 in.—1000 ft. with contours at intervals of two feet.

WHEN Engineers need a topographic map in planning a new project, they usually require contours at intervals varying from two to not over ten feet. By the methods we recommend these elevations are secured on the ground (not by any stereoscopic office process) and Fairchild Aerial maps can be made to any degree of accuracy required.

Requests for further information are welcome, and will be regarded confidentially.

FAIRCHILD
AERIAL SURVEYS
INCORPORATED

GENERAL CONTRACTORS

"What a magnificent building!"

The sight of an impressive building always arouses admiration but few know, as the Architect and Consulting Engineer know, all the steps that have been necessary to insure the successful erection of any completed structure.

For instance, a building cannot be better than the materials that go to make it up, nor the faithful installation of those materials in accordance with correct methods.

The service of the Robert W. Hunt Co. to Architect, Engineer and Builder covers every step in the erection of a building from the acceptance of the architectural plans until the final acceptance of the completed structure.

The Robert W. Hunt Co. inspect and test materials and supervise construction, rendering a broad service of an efficiency that makes the use of Robert W. Hunt Co.'s services the Architect's and Engineer's best assurance to the client that his interests are being carefully safeguarded.

In the erection of practically all important buildings and structures, throughout the country in recent years, such as the new Palmer House shown above, the services of the Robert W. Hunt Company, Engineers, have been utilized.

Inspection and tests of materials for buildings and structures

Talking and writing persuasively and convincingly on engineering subjects to win the active support of others

The ability to do this is a professional asset to every engineer

Professional advancement comes more easily to the technical man who knows how to express himself forcefully.

The purpose of this new McGraw-Hill Library is to help the engineer to acquire power in presenting his professional ideas clearly and forcefully. The engineer who cannot speak with confidence and skill in a conference, before a group of associates or a board of directors, at a society meeting or convention or who cannot write an able report, a description of a new method or process, a good, forceful technical article or a good business letter is failing in a major responsibility.

Library of Engineering English

Four volumes, $8.50, payable $2.50 in ten days and $2.00 monthly for three months

Four Books of value to every technical man

Sent on approval
Small monthly payments
No money down

Many models of good technical writing are included

These four books discuss the general principles of effective expression and then take up in detail the writing of technical descriptions, technical articles, engineers' reports and letters and the principles and methods of talking convincingly and persuasively at business and professional meetings. They stress also the cultural value of English to the engineer.

A Few of the Topics Covered

- why the engineer must be expert in technical writing
- how to write business letters
- how to write abstracts
- how to write summaries
- how to write book reviews
- how to write editorials
- how to write articles for technical magazines
- how to write reports
- how to write technical descriptions
- how to prepare a speech
- how to train the mind for effective talking and writing
- how to improve vocabulary, enunciation and pronunciation
- how to improve the voice
- how to use English to broaden one's outlook on life

Examine this library for 10 days FREE

See the books for yourself. Fill in and mail the attached coupon and the library will be sent you for ten days' free examination. You merely agree to return the books, postpaid, in ten days or to remit $2.50 for them then and $2.00 monthly for three months thereafter. These books should be in the library of every engineer. The examples of good technical writing which they include are alone worth the entire price of the set.

McGRAW = HILL
FREE EXAMINATION COUPON

"GRAVITY DISCHARGE ELEVATOR-CONVEYORS"

for Distribution and Storage of Coal

Chain and Buckets of the Webster Gravity Discharge Elevator-Conveyor

WHERE it is not practical to elevate coal to a sufficient height to permit spouting, or where necessity demands storage and distribution at a distance from the vertical lift, Webster Gravity Discharge Elevator-Conveyors are the most advantageous.

Their efficiency in handling coal at yards, docks, locomotive coaling stations, power plants and gas producer houses, has won for them the unqualified approval of users who vouch for their low maintenance cost and constant reliability.

Whether your coal handling requirements are large or small, Webster engineers can offer you a most complete fund of experience. Their services are at your disposal.

IRVING SUBWAY

TRADE MARK

PATENTED

REG. U.S. PAT. OFF.

THE NON-SLIPPING OPEN STEEL FLOORING

It may be hard to put a dollars-and-cents value on underfoot safety and comfort—but there's no denying the fact that it is a big factor in plant operation and efficiency.

The smooth, comfortable, safe, non-slipping surface of a floor of ***"Subway"*** gets the most and the best from the men who have to stand or walk or work or wheel upon it.

And its sectional construction—light, rigid, convenient, all-steel panels—makes it easy to place anywhere—in wide expanses or in narrow walkways, around machines, etc.

Ask us for Catalog 4A5.

IRVING IRON WORKS CO.

LONG ISLAND CITY, N.Y. U.S.A.

B-77

Built in 1909, this typical Tarvia street is still in perfect condition after 16 years of service.

Tax-Payers Reelect Road Commissioner

Voters Repeat Performance of Last Election—Keep Commissioner Edwards in Office

By an overwhelming vote of confidence yesterday, J. E. Edwards was reelected to the office of Road Commissioner, a post which he has held continuously since 1909. The absence of all opposition testifies to the complete endorsement by the taxpayers of the Road Commissioner's program.

Old residents can recall when Commissioner Edwards, advocating a comprehensive policy of road construction, repair and maintenance, first took office in 1909, sixteen years ago. Prior to his encumbency the streets of the community were in sorry shape. Yet with considerably less than a liberal appropriation, Mr. Edwards was able to accomplish wonders.

Main Street was his first objective. So far gone was the surface of this main thoroughfare, it was decided to completely [illegible] work was done in the summer

The Road Official's record is "out in the open"—

Tarvia Service *Chapter VII*

AS all public officials know, no official record is more completely out "in the open" than that of the road commissioner. If old roads are not well kept up, if new construction is not going forward, taxpayers soon begin to stir things up.

Quite natural that so many road commissioners lean toward a Tarvia program. For Tarvia enables them to point to sound economies effected—to savings in first cost and maintenance and savings on equipment.

In brief, the experience of hundreds of road officials has proved conclusively that, for the money spent, Tarvia gives more miles and the most years of satisfactory highway service.
